JUDICIAL DEPARTMENT.

BOOK CIRCULAR No. { VII / 29-996. } of 1864.

Dated Lahore, 28th June 1864.

The following Circular No. 5, dated 6th May 1864, issued by the High Court, Fort William, is circulated for guidance of all Magistrates and Justices of the Peace in the Punjab, in continuation of this office Criminal Book Circular No. II of 1863.

A. A. ROBERTS,
Judl. Comr. for the Punjab.

CIRCULAR No. 5.

FROM

THE REGISTRAR OF THE HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL.

To

ALL MAGISTRATES AND JUSTICES OF THE PEACE OUT OF CALCUTTA.

Dated Calcutta, 6th May 1864.

It has been represented to the Court that Magistrates and Justices of the Peace, after making commitments to the High Court in its original criminal jurisdiction, do not promptly send the records of cases to the clerk of the crown, but frequently delay doing so until the commencement of the Sessions at which the cases are to be tried. Such a practice causes great inconvenience to all concerned, and deprives the judge generally of the opportunity which he ought to have for looking over the depositions of the witnesses before the Grand Jury is charged, and the case goes to trial. This court is not aware of any reason for this delay in sending the records to the clerk of the crown, and after this Circular, will not fail to notice with its displeasure any such delay on the part of any Magistrate or Justice of the Peace. The court takes this opportunity of reminding Magistrates and Justices of the Peace that a copy of the warrant of commitment should always form part to the record which is sent to the clerk of the crown.

2. The court also requests the particular attention of Magistrates and Justices of the Peace to rule 3 of the rules circulated for their guidance by Circular 85 of the Secretary to the Government of Bengal, dated the 27th July 1860, which requires that all witnesses should be bound, in the usual form, to attend at the Court house on a day specified, which should be the first day of the Sessions for which the prisoner is committed, and which should be the next following Sessions after the commitment, if there is a sufficient interval of time between the commitment and the next Sessions, and if not, then to the next following Sessions. The dates fixed for the commencement of the Sessions during the current year are the following :—

CRIMINAL SESSIONS FOR 1864.

3. In order to ensure uniformity, the depositions of witnesses should be invariably recorded on foolscap paper and in a legible handwriting, the lines not being too closely written.

4. The following heading should commence each deposition :—

The deposition of taken under the solemn affirmation prescribed by Act V of 1864, before me Justice of the Peace, this day of

5. To save unnecessary labor, the court think that it will be well if officers requiring such forms applied in the proper quarter for a supply of printed headings of this description.

6. The depositions should invariably be subscribed with the memorandum required by section 199 of the Code of Criminal Procedure, the fact always being, as by law required, in accordance with the memorandum.

7. As a rule, cases in which *prima facie* it may appear that a person is charged with an offence for which he can tried only by the High Court in its original jurisdiction, should be enquired into by Magisterial officers, who are competent to commit the accused; but if it happens, as sometimes it may, that a charge is entertained in the first instance, by an officer who finds that he has no jurisdiction to proceed, and is therefore compelled to stay further proceedings, and refer the case to a competent officer, in such cases the evidence should be taken afresh by such competent officer; and as the proceedings held by the first officer do not constitute the legal basis of any subsequent commitment, they should not form part of the record submitted to the High Court, and should not be transmitted as part of the record to the clerk of the crown.

8. The clerk of the crown states that not unfrequently Justices applied to him for advice and direction on various points, as for example, respecting the course of the investigation, the sufficiency of the evidence, the number of the witnesses to be sent down, the selecting of some, and other similar matters of detail. The clerk of the crown represents that generally he refers such applications to the Solicitor to Government for reply, that officer being able to obtain the opinion of the law officers of the Government. The court is of opinion that it would be better, in such cases where Justices required advice or direction (except as to what merely concerned the office of clerk of the crown) that Magistrates should apply direct to the Solicitor to Government. The clerk of the crown has suggested that, at the examination of the prisoner, the officer in whose charge the prisoner if committed will be sent down should be present, in order that he may be able to prove the examination and signature of the prisoner to it, as in some cases this proof is required to establish the fact of British origin, on which the jurisdiction to commit and try depends. Much inconvenience is often occasioned by witnesses from the Moffussil, through their want of information as to the means of getting quarters, if they are poor and strangers, and as to the means of obtaining their expenses. They should be informed that the Commissioner of the Police of Calcutta has charge of these matters, and not the clerk of the crown.

By order of the Court,
(Signed.) F. B. PEACOCK,
Officiating Registrar.

BOOK CIRCULAR No. { VIII / 30-997 } of 1864.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

Dated Lahore, 29th June 1864.

SIR,

JUDICIAL. (*Criminal.*)

With reference to this office Book Circulars 12 and 13 of 1862, and in continuation of Criminal Book Circular VI of 1864, I have the honor to forward, in English and Vernacular, two copies each of revised sets of quarterly statistical returns of the Magistrates' and Sessions' Courts. I also enclose a copy of each set to be pasted into the Book of Periodical Returns, lately distributed with my Criminal Book Circular III of 1864.

2. Alterations and additions have chiefly been made in the punishment statements, owing to the introduction of the Whipping Act, VI of 1864, the supplementary statements (Magistrate's VII A and Sessions' II A) being solely devoted to the exhibition of the statistics connected with the operation of this Act, which, as they are required for the information of the Supreme Government, I request may be carefully prepared. This opportunity has, however, been taken to add in their proper places in the Magistrates' statements columns for showing the information heretofore called for in the Circulars marginally noted and at present rendered in separate memoranda and notes, and to change the position of the statement from No. II inclusive, in such a manner as to do away with the necessity of writing the names of officers more than once, the figures in each statement being entered opposite the appropriate name, which will appear once for all in statement II. This, as it will save a great deal of writing, will, it is hoped, secure the submission of the returns earlier than has hitherto been the case.

Book Circular 37 of 1862.
Book Circular 50 of 1862.
Book Circular 3 of 1863.
Circular Memo. Nos. 1382, 1383, of 28th April 1863.
Circular 35 of 1863.

3. As a consequence of the above changes the numbers of some of the statements have had to be altered; thus Nos. IV and VIII have become Nos. V and III respectively; Nos. V A, V B, and VII have been thrown into one, now numbered IV. The punishment statement III has been placed last, and numbered VII, on account of the supplementary statement VII A, which could not conveniently be put before the others.

4. Of the Sessions statements Nos. V and VI have been omitted as unnecessary. No. VII has become No. V. The punishment statement II has been revised and a supplementary one (II A.) added.

5. Measures should be taken to have the statistics of the 1st quarter of this year recorded in the form now prescribed, so as to prevent trouble at the end of the year. A set of rules for preparation of these returns will follow.

I have, &c.,
A. A. ROBERTS,
Judicial Commissioner, Punjab.

No. 528 *of* 1864.—His Excellency the Governor General in Council is pleased to make the following appointment.

PUNJAB IRREGULAR FORCE.

Corps of Guides.

Cornet W. A. Lawrence, Her Majesty's 21st Hussars, to be doing duty officer.

The 5*th July* 1864.

Nos. 187, 188, 189.—The following extracts from the *Gazette of India* of the 20th June are republished :—

No. 507 *of* 1864.—The following transcript of a Military letter from the Right Hon'ble the Secretary of State for India, No. 152, dated 16th May 1864, is published for general information—:

MILITARY. INDIA OFFICE :

No. 152. *London, the* 16*th May* 1864.

To His Excellency the Right Hon'ble the Governor General of India in Council.

SIR,—Paragraph 1. In connection with the subject of the reorganization of the Medical Service in India, Her Majesty's Government have, for some time past, had under consideration the present state and future prospects of the Indian Medical Service in regard to promotion, and the system of payment to the Medical Officers of the Indian Army and those of the British Army serving in that country.

2. A final decision upon the arrangements connected with the future provision of Medical Officers for service in India has been delayed from unforeseen and unvoidable causes, but will be communicated to you very shortly.

3. In the meantime, Her Majesty's Government have determined upon the adoption of certain measures affecting the interest of the present service, in regarl both to pay and promotion.

4. It has been found by experience that the promotion to the rank of Surgeon in the Indian service as been much slower than the same in the British ervice, and although this is in a great measure attributable to augmentations that have been made of late years in the latter, the difference, therefore, being in a measure temporary, it may in some degree be attributed to the difference which has hitherto existed in the relative numbers of the two grades in the two cases. In the British Medical Department I find the proportion which the Assistant Surgeons bear to the senior grades is as 641 to 355, while in the Indian service it has been hitherto,—

In Bengal as 285 to 140
Madras „ 167 „ 76
Bombay „ 137 „ 56

5. To carry out the assimilation in this respect would require, therefore, the promotion of Assistant Surgeons in India to the following extent:—

In Bengal 12
Madras 10
Bombay 13

6. You are authorized to make these promotions from the date of the receipt of this despatch. The establishment of Medical Officers above the rank of Assistant Surgeon in the three Presidencies will, so long as there are Officers enough remaining on the old lists to complete these numbers, be fixed,—

In Bengal 152
Madras 16
Bombay 69

7. With a view of removing all cause of complaint and misunderstanding, on the part of the Officers of the Indian Medical Service, on the subject of their promotion to the rank of Surgeon-Major, under the Royal Warrant of 13th January 1860, Her Majesty's Government have determined to give retrospective effect to that Warrant, and to cause all promotions made under its authority to be dated from the 1st October 1858, being the date of the Royal Warrant for the British Medical Department, and it has been further determined to modify the instructions conveyed to you in my Despatches No. 397, dated 31st October 1860, and No. 386, dated 30th September 1861, and to permit the period of service, qualifying Surgeons for the rank of Surgeon Major under that Warrant, to be calculated from date of first commission, including all leave of absence of whatever kind.

8. It has been further resolved that the following change in the mode of payment of Officers serving in India, whether of the British or Indian Medical Department, shall be introduced from the date of the receipt of this Despatch.

6. From that date, the allowance of head money, as well as that for medical charge of British regiments and brigades, will be discontinued, excepting in the case of Assistant Surgeons, who will receive, while in actual charge of British regiments or brigades of Artillery, a special allowance of Rupees 150 per mensem in additon to their pay.

10. The following will be the rate of pay for Officers of the several grades in the Medical Department, below that of Inspector and Deputy Inspector General, who receive special salaries, whether belonging to the British or the local service :—

11. Surgeons of Her Majesty's Service, not being Surgeon Majors, who may be in medical charge of Regiments or Brigades at the date of publication of the order, will not be affected by this rule, but will continue to receive their pay and allowances while attached to such regiments as heretofore.

12. Officers of the British Medical Department attached to Brigades of Horse Artillery and regiments of British Cavalry will draw, in addition to the rate of pay above laid down, horse allowance at the following rate :—

14. The rule regarding pension, at present applicable to the Officers of the Indian Medical Service, will remain in force with the following modification :—

15. Officers compelled to leave the service on account of ill health, and entitled to half pay pension under present Regulations, will be allowed the half pay of their relative rank, as laid down in the Royal Warrant, dated the 1st October 1858. This rule will apply to all Officers retiring upon half pay pension from a date subsequent to the receipt of this Despatch.

16. Pending a further communication upon the subject of the Medical Service in India, Officers of the British or Indian Medical Service holding staff appointments, the salaries of which are consolidated, will continue to draw their salaries as at present; and all Officers of the Indian Medical Department in the receipt of staff salaries, including such as are in medical charge of Native Regiments, will continue to draw the aggregate amount of pay and staff allowances they now receive, provided it be not less than the rate of pay laid down in the above Table for Officers of their rank and standing in the service.

17. In communicating to the Secretary of State for War the proposal to adopt the above modification in the mode of payment of British Medical Officers in India, I expressed an opinion that, considering the extent to which the strength of regiments of British Infantry had been lately reduced, the number of Assistant Surgeons with their corps might, with propriety, be reduced from three to two, the reserve of Medical Officers of the British Army, which it is proposed to maintain to meet the demands of the British Army in India generally, being so calculated as to ensure at least that number of Officers being at all times available with each regiment.

18. The Secretary of State for War has consented to this reduction, upon the understanding that it shall be considered an experimental arrangement, and that the Staff Assistant Surgeons constituting the reserve shall be considered as forming part of the Medical Staff at the disposal of the Military authorities.

19. The establishment of Staff Surgeons and Assistant Surgeons of Her Majesty's service at present allowed is as follows :—

1 Inspector General of Hospitals.
4 Deputy do. do.
10 Staff Surgeons.
30 Staff Assistant Surgeons.

20. You will consider and report at an early date whether this number of Assistant Surgeons will suffice, under the present arrangement, to ensure the constant supply of two Assistant Surgeons to the whole of Her Majesty's Regiments, or what increase may be required for that purpose.

I have, &c.,
(Sd.) CHARLES WOOD.

2. The Governments of Madras and Bombay will be pleased to make the promotions, authorised in paragraphs 5 and 6 of the Despatch of the Secretary of State, with effect from the 15th June 1864, and those Governments will be further pleased to make the alterations of rank in the grade of Surgeon Major, rendered necessary by paragraph 7 of the Despatch.

3. Rolls of promotions and alterations of rank, rendered necessary in Bengal, will be submitted by His Excellency the Commander-in-Chief in India, to Government, as soon as may be practicable.

2. With reference to paragraph 12 of the same Despatch, His Excellency in Council is pleased to direct that, until further orders, Rupees 60 per mensem shall be passed as horse allowance to Medical Officers serving with Regiments of Native Cavalry, in addition to the pay laid down in paragraph 10 of the Despatch.

*Regulation XIV of 1816.
Do. III. of 1826.

I have the honor to lay down, under the orders of His Honor the Lieutenant Governor, the offences for which the punishment of whipping may be awarded to prisoners in Jails, in accordance with the Regulations *marginally noted, *as follows* :—

I.—Contumacious refusal to work.

II.—Wilful neglect and indolence in the performance of any prescribed work; especially after previous admonition: malingering would come under this head.

III.—Wilful disobedience of any written rule for the observance of prisoners and the internal economy of the jail, such as possession of forbidden articles.

IV.—Refractory behaviour by prisoners, such as resistance or abusive language to the jail and other public officers and guards, and generally any culpable behaviour towards them.

V.—Any disorderly conduct, such as riot, insurrection, and abetment of the same, abusing, or quarrelling with other prisoners, and generally any misconduct, such as destruction of machinery, material, clothing, food, the jail building, or any other property of Government.

2. The rules lately laid down in my Criminal Book Circular VI for inflicting the punishment of whipping under Act VI of 1864, are generally to be observed, whenever whipping is inflicted for breaches of jail discipline.

3. There are other punishments which can be inflicted for offences III, IV, and V, either in lieu of or in addition to whipping.

For offence III.—Close or solitary confinement.

For offence IV.—Do.; and in aggravated cases, handcuffs.

For offence V.—Close, or solitary confinement, and substitution of heavier fetters than those in ordinary use, and also handcuffs if necessary.

N. B.—Reduction of diet should never be resorted to as a means of punishing prisoners undergoing labor.

4. For offences IV and V committed by civil prisoners, close confinement, or reduction of prisoner's allowances for two months or under, the saving to be credited to Government as a fine. Reduction of allowance is not to be resorted to without the consent of the Medical officer in charge of the jail.

5. The above cases may be disposed of by the officer in charge of the jail if he possesses Magisterial powers, but he cannot sentence to whipping unless he has powers above those of a Sub-Magistrate of the 2nd class. The enquiry is to be summary, and the cases will be entered in Register No. 10, given at page VIII of Appendix to Jail Manual, and every quarter of the calendar year an abstract statement, as under, will be submitted to this office through the Inspector General of Prisons, showing the nature of the offences, the number of convictions, and the extent of punishment awarded.

6. Prisoners committing offences defined in the Indian Penal Code must be tried under that Code, the Criminal Procedure Code will apply strictly, and the cases will appear in the District Criminal Returns I to VII. The officer in charge of the jail may try such cases also if he has Magisterial powers, and if under the Criminal Procedure Code he is competent to do so, otherwise they must be sent for the orders of the Magistrate of the district.

No. 530 *of* 1864.—The Right Hon'ble the Governor General in Council is pleased to direct the publication, for general information, of the accompanying copy of a despatch from the Right Hon'ble the Secretary of State for India, laying down the Rules under which officers are to be admitted to the Staff Corps of the three presidencies :—

MILITARY. No. 44. INDIA OFFICE, *London, the 9th February* 1864.

To His Excellency the Right Hon'ble the Governor General of India in Council.

SIR,—Para. 1. I have received and considered in Council the letters, No. 104A., dated the 26th

September 1863, and No. 33?, dated the 8th December 1863, forwarding certain papers connected with the tests to which it is proposed that candidates for admission to the Staff Corps shall be subjected.

2. The conclusion to which the late Governor General had arrived upon the subject, after a consideration of the opinions of His Excellency the Commander-in Chief, of the Governments of Madras and Bombay, and of various officers who had experience of the various departments, are embodied in a memorandum by Colonel Norman, which has been forwarded with the Governor General's despatch.

3. In considering this most important subject, it seems necessary, at the same time, to lay down more distinctly than has yet been done, the principle upon which appointments to the Staff Corps shall be regulated hereafter.

4. The instructions contained in paragraph 20 of my despatch of the 18th January 1861, were as follows :—" The selection of officers for the Staff Corps will rest with the Governments in India. No officer, however, should be admitted on probation without the consent of the Commander-in-Chief, and without a certificate from the commanding officer of his regiment that he has efficiently performed his regimental duty for the prescribed period. I desire that, after communication with the Governments of Madras and Bombay, your Government will prepare a scheme of the tests and periods of probation suitable for the several departments of military and civil staff employment."

5. The principle was more fully expressed in your General Order of the 10th April 1861, in which it was stated,—" They will not be permanently appointed to the Staff Corps, unless, after due probation, they shall pass the prescribed tests for the branch of the Indian service for which they may be selected." And, again (para. 81),—" A subsequent Notification will prescribe the period of probation, and the tests of qualification in the several departments."

6. It was clearly understood, therefore, that appointments should be made to the Staff Corps, as vacancies occurred in the several departments of the Staff, by the appointment of officers to those vacancies, and, in virtue of such employment to the Staff Corps ; and the intention is further expressed in the first paragraph of Colonel Norman's memorandum, where, in the third condition of appointment, it is stated that, " he must have passed certain tests, to be laid down for the department of the service he is about to join."

7. The system of recruiting the Staff Corps by the appointment of officers to vacancies in the Staff as they occur, is fully explained in the 29th paragraph of the memorandum, in which it is stated that, " as probationer, the doing-duty officer with cavalry or infantry, should be within the complement of six officers allowed to the corps ;" and, again, " in all other appointments the probationary officer might likewise be included in the complement of the department, if necessary a slight increase of the junior department being made for the purpose."

8. Upon further consideration of the subject, I am of opinion that the system, as originally proposed, requires modification.

9. It appears to me absolutely necessary that the several Staff Corps should be complete in themselves, *i. e.* that they should bear on their rolls, not only officers enough to occupy all the situations, and perform all the duties for which the corps have been formed with a margin for absentees, as already explained, but also a sufficient number in excess of these requirements to form a reserve to meet casualties by death or retirement. This reserve may properly consist of a sufficient number of officers to meet the average casualties of one year.

10. It seems to be admitted, that the one year will be a sufficient probation for admission to the Staff Corps, irrespective of the further period of probation which may be deemed necessary for special departments, and the number of probationers to be admitted each year should be sufficient to form a reserve calculated on the principle above stated.

11. Any officer under the rank of Field Officer is eligible to the Staff Corps, and there will be cases, probably, in which officers of several years' standing may qualify themselves for staff service in India and may desire to enter the Staff Corps ; but there can be little doubt that, as a general rule, most of the new appointments to the Staff Corps will be among young officers, and the proper place for such, while on probation, will be native corps, in which they should be employed in excess of the regular establishment.

12. It appears to me therefore—

1st.—That the strength of the several Staff Corps should be such as to meet, not only the demands of the service in India for officers required for Staff employment, due allowance being made for furlough and sick leave, as stated in my despatch of the 3rd December 1861, but also to maintain a reserve equal to about 4 per cent. on the above to meet casualties by death or retirement.

2nd.—That, as a general rule, the Staff Corps should be maintained at the above strength by appointing a number of probationers to the corps, with a view to forming the reserve, the whole of whom, with the exception of those who may be posted at once to special departments, should be posted and paid as additional doing-duty officers to regiments of cavalry and infantry,

3rd.—That the test for appointment to the Staff Corps should be the same in degree, without reference to the situation or department in which an officer's probation is to be passed.

4th.—That the further test, and periods of probation for the different departments may, and must, vary according to the nature of the duties and the extent of the qualification required.

13. Thus, if, as I conceive would be commonly the case, an officer on being appointed on probation, is posted to a native regiment, one year's probation would be sufficient to determine both his eligibility for the Staff Corps and his fitness for employment in that department.

14. In his subsequent employment in any other department of the staff, not only should his peculiar qualification as probably fitting him for that special duty be considered, and reported upon before admitting him a probationer in such department ; but a period of probation should be required before he is confirmed therein.

15. On the other hand, if it is proposed to appoint an officer to the Staff Corps on probation, by giving him direct employment in a department, say the Commissariat, one year's probation there should suffice to establish his eligibility for the Staff Corps ; but, should further probation be considered necessary before his confirmation in that particular department, an officer might still be appointed to the Staff Corps provided he had made satisfactory progress towards qualifying for the departmental test.

16. I shall now proceed to consider the proposed tests.

17. In the third and the following paragraphs of Colonel Norman's memorandum, the general qualification required for all candidates for the Staff Corps before being admitted on probation, are considered.

18. He must have been three years with a regiment, of which two shall have been passed in India.

19. He must produce a certificate from his commanding officer, showing that he had efficiently performed his regimental duty for the prescribed period, and that he had passed the prescribed examination in the native languages. A form of certificate is given in the Appendix to Colonel Norman's memorandum.

20. It is very properly proposed, also, that a medical certificate—form of which is given in the Appendix—should be required, showing that the candidate "is of good bodily health, and believed to be able to stand both out-door and in-door work in the climate of India."

21. I entirely concur in this view of the qualifications and certificates to be required of an officer before he is appointed a probationer for the Staff Corps.

22. The different branches of the Military and Civil Army Staff for which different tests as proposed, are as follow :—

I. Appointments to native infantry.
II. Appointments to native cavalry.
III. Appointments in the department of the Adjutant General, including Brigade Majors and fort Adjutants.
IV. Appointments in the Quarter Master General's department.
V. Appointments in the Judge Advocate General's department.
VI. Appointments in the Department of Military Finance.
VII. Appointments in the Commissariat department.
VIII. Appointments in the Stud department.
IX. Appointments in the Survey department.

23. I do not consider it advisable that officers should be admitted on probation for the Staff Corps to any of the departments of the general staff of the army in which the appointments are tenable for five years only, and which are open to officers of the line, as well as to those of the Staff Corps. With this exception, I approve generally of the tests recommended for the several departments, and of the general principles upon which you propose that officers should be selected and appointed to them. I request your attention, however, to the following observations :—

24. In the 16th paragraph of the memorandum, it is observed, with reference to some very judicious remarks by His Excellency the Commander-in-Chief,—"It appears most inexpedient to require that the tests should necessitate the possession of knowledge not required to enable the duties of the department to be properly conducted. Scholastic examinations come very much amiss to officers who have left school for some years, and their adoption will certainly increase the difficulty of procuring candidates for the Staff Corps, a difficulty which may very possibly arise."

25. In this opinion I entirely concur; and it is for that reason that I consider the test for admission to the Staff Corps should be, generally, distinct from that exacted for admission to a special department of the staff.

26. I observe that your President in Council has raised an objection to the following clause, relative to the proposed examination of an officer who had completed his probation with a native regiment : —

"I. Ability to converse freely with men of the regiment, to be tested by the officer speaking, in presence of the committee, successively with four or five men taken from the ranks, and belonging to different races, or, if the corps is of one race from different parts of the country whence the men come," observing that this clause, "if too strictly interpreted," might "prove an unduly difficult test, if an officer had to speak to Persians, Afreedies, Seikhs, and Goorkhas, in their own language."

27. You purpose bearing in mind this objection, which is, I think, well founded, when final orders are issued on the subject.

28. I consider that a qualification for staff employment in the Hindoostanee should be sufficient as a language test for admission to the Staff Corps.

29. Other languages might be required by departmental regulation, according to the locality and the nature of the duties to be performed.

30. The examination proposed, after a year's probation with a native regiment, being sufficient to test an officer's fitness for the Staff Corps, it is obvious, as I have before pointed out, that, in the case of an officer serving on probation with any other department, the examination for admission to the Staff Corps must be distinct from, and would usually be preliminary to, that required to test his fitness for that particular department.

31. The next branch of the service to be considered is the native cavalry. I cannot concur in the propriety of requiring that, before an officer is appointed on probation to do duty with a cavalry regiment, he should be in possession of a certificate from the commanding officer of a dragoon regiment that he had successfully passed through a course of equitation, as laid down for cavalry officers. But it would be very proper to require young officers, who may desire to pass the period of their probation for the Staff Corps with a cavalry regiment, to furnish satisfactory evidence of their aptitude for riding.

Departments of the Adjutant General and Quarter Master General.

32. Under the rule laid down above, paragraph 23, no officer would be appointed to these as probationer for the Staff Corps.

33. Considering also the nature of the duties, and the fact that the tenure of appointment in these departments is limited to five years, it does not appear either necessary or desirable that there should be any period of probation in them. An officer, of whatever branch of the service, selected for appointment in either one or the other of these departments, might reasonably be expected to pass, before admission, the examination proposed in these papers.

34. Subject to such modification as may be necessary in the application of the above principles, the tests and mode of appointment proposed for the remaining departments connected with the military branch of the administration, have my approval.

35. With respect to the Judge Advocate General's department, it is observed, in Colonel Norman's memorandum, paragraph 24—

"For this department, the appointment of young officers seems inappropriate, and, in practice, it will probably be found that a large majority of officers who enter it will be taken from other departments, and will already belong to the Staff Corps."

"Some, however, may enter it direct from regiments, and for those a test seems necessary, which

would also be applied to officers already in the Staff Corps, before permanent nomination to the department." It is added, that probably no officer will be selected by the Commander-in-Chief for the department who has not, in some manner, shown an aptitude for the particular duties.

36. I concur in these views, but I consider that they are equally applicable to the remaining departments, viz., the department of Military Finance, the Commissariat department, the Stud and the Survey departments.

37. They are in accordance, also, with the principle which has already been insisted upon, viz. that the tests for admission to the Staff Corps should be distinct from those laid down for special departments of the Staff. The tests for admission to the Political department will be considered with reference to the late Governor General's despatch in that department, No. 9, dated 28th August 1863. It is understood that the tests for admission to the Public Works department have been already laid down in the regulations of that branch of the public service.

38. An officer's own taste and wishes, when he is once appointed to the Staff Corps, will generally indicate the department for which he has most aptitude; and, at all events, his character, and the nature of his qualifications, will very soon become known to his superiors.

39. With reference to the 30th paragraph of Colonel Norman's memorandum, I have to observe, that the date of an officer's appointment to the Staff Corps should be that of his appointment on probation. In the case of a line officer, the promotion in his regiment consequent on his transfer should have effect from the date of his permanent appointment to the Staff Corps.

40. I shall not object to granting to officers now on staff employ, who await the publication of the tests, the privilege proposed in paragraph 31, viz. that of dating their admission to the Staff Corps from the date on which they obtained permanent appointment to the staff, subsequent to the 18th February 1861.

41. The necessity of maintaining a reserve of officers on the Staff Corps has been already pointed out, and I need scarcely remark that such reserve will be found in the officers of the local service, so long as any of that service remain.

42. There can be no objection, however, to admitting officers of the local service as probationers for the Staff Corps under the above rule, to such an extent as shall not exceed the establishment proposed for the Staff Corps, including the estimated reserve.

43. I learn, from a recent despatch from the Government of Bombay, that the number of officers available for employment in that presidency, whether of the local service or in the Staff Corps, is rapidly approaching the limit of their requirements. As there is still some excess in the other two presidencies, I shall not object to the appointment of officers of the Bengal and Madras armies to the Bombay Staff Corps, should your Government consider it advisable to permit of such an arrangement.

44. In the meantime, it seems desirable to notify by General Order to the officers of the army at large the qualifications which will be required for candidates for admission to the Staff Corps, and the form in which applications for such admission should be prepared and submitted, and it should be distinctly understood that officers of line regiments, within the prescribed limits as to rank, are eligible for appointment to the Staff Corps, of either presidency, without reference to the presidency in which their regiments may be serving.

45. From a despatch received from the Government of Madras, No. 164, 25th June 1863, I have reason to fear that there has been some ground for misunderstanding as to the class of officers who were to be admitted to the Staff Corps provisionally, and subject to probation and examination.

46. Your General Order, dated 10th April 1861, announced that the "officers who may have held their appointment for less than one year, will not be transferred permanently to the Staff Corps, unless they possess the requisite qualifications, to be hereafter laid down, and shall have completed the period of probation to be prescribed."

47. This condition was founded upon the 18th paragraph of my despatch, dated 18th January 1861, which stated that officers then holding staff appointments, who had held them for short periods only, would not be transferred permanently to the Staff Corps, unless they should possess the requisite qualifications, and until they should have completed the period of probation that might be prescribed for the department in which they might be serving.

48. By your General Order No. 332, of the 10th April 1861, paragraph 73, you admitted to the Staff Corps all officers who had been in permanent staff employ during the three previous years.

49. The introduction of the rule which was approved in my despatch No. 319, dated 10th August 1861, paragraph 32, obviously required a modification of that above quoted, which should have been so altered as to require that an officer should have held a substantive appointment on the staff for a certain period, *i. e.* a year within the three years preceding the formation of the Staff Corps, failing which he was to pass certain tests, before his appointment to the Staff Corps could be confirmed.

50. For the reply given by your Government to Question 87, which was approved by me, it was stated that an officer should have held, for not less than one year, the particular appointment which he held at the time of the formation of the Staff Corps. That answer, the full effect of which was overlooked at the time that it received my approval, must not interfere with the revision of your proceedings on the principles now laid down. Should any officer have been erroneously denied permanent appointment to the Staff Corps under this mistaken interpretation of the rule in question as now shown, his case must be re-considered.

I have, &c.,
(Sd.) CHARLES WOOD.

The 27th June 1864.

No. 531 *of* 1864.—With reference to the despatch of the Secretary of State, published in the foregoing order, the Right Hon'ble the Governor General in Council is pleased to notify that for the present, and pending a further communication with Her Majesty's Government, no officers will be admitted to the Staff Corps *on probation*, and admissions will solely be made consequent upon officers having obtained appointments and given satisfactory proof of their fitness for the same, according to the rules hereinafter laid down.

2. All officers now in permanent staff employment of a description that qualifies for the Staff Corps, will be admitted thereto from the date of their having obtained such permanent appointment subsequent to the 18th February 1861, provided they have passed, or do pass, within six months from this date, the tests hitherto in force or that are

now to be laid down. In the case of such officers as may be now in Europe, the period of six months will reckon from date of their return to India.

Under this rule, officers appointed to staff situations between the 19th February 1860 and the 18th February 1861, will be admitted to the Staff Corps from the 19th of the latter month, but officers who having been one year in staff employ on the 18th February 1861, and therefore eligible for appointment on the formation of the corps, and who then did not apply for admission, can only enter from the date on which they may hereafter be appointed to the corps.

3. With reference to paragraphs 45 to 50 of the despatch of the Secretary of State, it is announced that all officers who held a permanent staff appointment for one year, at any time between the 18th February 1858 and 18th February 1861, are eligible for admission to the Staff Corps from date of its formation, and this is not to be affected by the circumstance of an officer having held two or more different appointments during such period.

4. Applications for admission to the Staff Corps of the respective presidencies under the two foregoing paragraphs, are to be submitted to the Government of India, of Madras, or of Bombay, through the channels laid down in paragraphs 7 and 8 of this order.

5. In future, no officer will be nominated to any appointment qualifying for the Staff Corps, who does not produce the certificates referred to in paragraphs 19 and 20 of Sir C. Wood's despatch,* and where officers obtain appointments under the Commander-in-Chief, these certificates are to be attached to the final application for admission to be submitted to Government after the prescribed period of probation. The Governments in the Military department will require to see these certificates prior to the appointment on probation of an officer to any situation under Government that qualifies for the Staff Corps.

* See Appendix A.

6. The tests and periods of probation necessary to qualify officers for admission to the Staff Corps, in consequence of their nomination to appointments other than those belonging to the Military department, will be those already laid down, or that may, from time to time, be fixed in the other departments of Government, but when new rules or changes in existing rules on the subject are made, they will always be re-published to the army in the General Orders of the Military department.

7. When officers employed in situations not under the Military department, who have qualified in all respects, including retention of a probationary appointment for the prescribed period, desire to enter the Staff Corps, they will apply through their immediate superiors to the department of the Government under which they are employed, when the application, if approved, will be transferred to the Military department, in view to the admission of the applicant being announced in General Orders.

8. The tests for admission to the Staff Corps in appointments under the Military department or Commander-in-Chief, are laid down at the end of this order, and applications will be submitted through Commanding Officers or heads of departments to the Adjutant General in the first instance, accompanied by the prescribed certificates, for eventual submission to Government.

9. In all cases, whether of civil or military employ, a fixed period of probation will be laid down, at the termination of which, if an officer cannot pass the tests, he must revert to regimental duty, unless under special circumstances a short extension of the period of probation is allowed by the Government of the presidency on the recommendation of the department concerned, or of His Excellency the Commander-in-Chief.

It will be open to an officer at any period of his probation to apply to be allowed to revert to regimental duty should he find the nature of the employment unsuited to him, or with the approval of the Commander-in-Chief or of Government, he may, during the same period, be remanded to regimental duty for manifest inaptitude.

10. The circumstance of an officer being in the Staff Corps will not exempt him from passing *departmental* tests, should he be transferred from one appointment or department to another.

11. There are certain small departments or separate offices under the Military department for which tests are not laid down. It will rest with the Government of the presidency in cases where officers not belonging to the Staff Corps may be nominated to such appointments on probation, to decide in each case on the report of his immediate superior whether an officer has established his fitness for the Staff Corps, and to admit him thereto or to remand him to regimental duty, but in every case an officer must have fulfilled all the general preliminary conditions required in candidates for the Staff Corps.

12. It has been laid down that hereafter the date of transfer of an officer to the Staff Corps will be that of his appointment on probation.

13. Officers of Her Majesty's British regiments are eligible for appointment to the Staff Corps of any presidency, without reference to the presidency in which their regiments may be serving.

TESTS FOR ADMISSION TO THE STAFF CORPS FROM MILITARY APPOINTMENTS

1. *Native Infantry.*

I. Knowledge of the Native Articles of War and the Military Regulations of the presidency, particularly all such as affect the conduct of native troops, their pay, pension, clothing, &c., which is to be tested by an examination of a somewhat searching character, consisting of not less than fifty questions and answers, all of which are to be recorded in the report of the examination.

II. Knowledge of the system pursued in the native infantry, and especially in the regiment to which the officer has been attached, as to the mode of investigating and dealing with offences, complaints, and petitions from the men. The manner in which the rosters for furlough and guard are kept. The deductions usually made from the men's pay on account of half-mounting, or for other purposes, and the system of accounts followed in the corps, together with an acquaintance with all the forms in use.

III. Knowledge of every article of equipment used by the men of the regiment, their usual or fixed cost, mode of carrying them, &c.

IV. Ability to act as adjutant on parade, to be tested on parade with a battalion, with a knowledge of reconnoitreing and outpost duty, and ability to write a report of a "reconnoisance." This report must be written in a legible hand.

V. The probation will extend over one year, at the end of which period the commanding officer of the regiment to which the candidate has been attached, will apply for a committee of examination. This committee will be assembled only at the head quarters of divisions or brigades, and

will be presided over by the General Officer or Brigadier General Commanding, with two Commandants of native regiments, or one Commandant and one Second in Command as members.

VI. The committee will give their opinion in succession on all the points noticed above, and conclude by saying that they consider the officer qualified (or not as the case may be) for permanent employment with native troops. They are to embody in the report a statement as to whether the candidate has had the opportunity afforded him of acting as adjutant on parade, or has been detached under a senior officer on escort duty, and whether he has been in the habit of frequently attending orderly room with the commanding officer, and thereby obtained a full insight into the system of the regiment. This report is to be sent through the Divisional General to the Adjutant General, who will transmit it, accompained by the opinion of the Commander-in-Chief, to the Government of the presidency, when, if approved, the officer will be gazetted to the Staff Corps with effect from the date on which he commenced his period of probation.

VII. It is to enable an officer to show his aptitude for, and zeal in, the performance of his regimental duties, that the period of a year has been fixed for his probation.

VIII. During this time, in which the officer should be employed as indicated above, including, if possible, detachment duty, his commanding officer should satisfy himself that his temper and general habits are such as to render him an efficient officer of native troops. At any time during the period of probation, it will be open to the commanding officer to represent to the Commander-in-Chief that he does not think the probationer, either from temper or other cause, suited for employment with native troops; in which case it will be competent for the Commander-in-Chief, if satisfied with the reasons assigned, to direct the officer to rejoin his regiment, or, if in the local service, to do duty elsewhere.

IX. As a rule, an officer who fails at the expiration of one year's probation to pass a satisfactory examination, will revert to his proper corps or to general duty; but under very special cases, an officer so failing may be allowed to continue with the regiment to which he is attached, and to undergo another and a final examination at the end of eighteen months.

2. *Native Cavalry.*

I. An officer, nominated to the native cavalry, will be required to pass the same tests and the same period of probation as laid down for native infantry. He will, however, be required, before being attached to a native cavalry regiment, to furnish satisfactory evidence of his aptitude for riding.

II. The examination and final appointment will be conducted as in the infantry; but the committee will have upon it two cavalry officers, of whom one at least should be commandant of a native cavalry regiment.

III. In addition to all the points laid down for the infantry, the committee will report on the officer's qualification, as respects a knowledge of cavalry drill, and of the system peculiar to the native cavalry in regard to purchase of horses, &c. He should also prove himself to be well acquainted with the system of stable management in the corps, the district whence horses are usually obtained for it, their prevailing defects and good qualities, their usual price, &c. He should also show himself possessed of some general knowledge of farriery, and of the diseases and injuries to which horses are liable, as well as their treatment.

3. *Appointments in the Department of the Judge Advocate General.*

I. It is probable that a large majority of officers who enter this department will be taken from other appointments, and will already belong to the Staff Corps.

II. Some, however, may enter it direct from regiments, and these, as well as officers already on the Staff Corps, will have to pass a test examination before permanent appointment to the department. This will consist of—

1. A *vivâ voce* examination before a committee as to their knowledge of military law.

2. Replies in writing to a series of questions which will be propounded to them by the Judge Advocate General of the Army.

III. The committee of examination will assemble at divisional head quarters, and will be composed of the Deputy Judge Advocate General of the division, and two selected Field Officers, whose report will be forwarded to the Judge Advocate General.

IV. The examination must be conducted so as to show the candidate's amount of knowledge of the different Mutiny Acts and Articles of War, Her Majesty's and the Bengal Military Regulations, and the Indian Penal Code. The candidate's capacity to review the proceedings of minor Courts Martial will be tested by questions put to him by the committee; his fitness to conduct the proceedings of a General Court Martial being ascertained in the same manner, and by requiring him to frame a skeleton charge under any specified article, and to write out in their presence the proper form to be observed in recording the proceedings of such Court Martial, entering the punishment awardable on conviction of the charge indicated.

V. The series of questions referred to under No. 2 (paragraph II) will be prepared at army head quarters under the orders of His Excellency the Commander-in-Chief, and sent to the committee, in whose presence they must be replied to, and by whom they will be forwarded with their proceedings.

VI. This examination will precede the period of probation, the latter being terminable after one year's performance of duty, on a satisfactory report as to the probationer's practical qualification being made by the commanding officer of the division to whose staff he was attached, and by the Judge Advocate General.

4. *Appointments in the Accounts Branch, Military Department.*

I. Under this heading are included all situations of whatever kind (save that of Regimental Pay-Master), held in the departments connected with the pay accounts, or audit of accounts of the army, or of its establishments.

II. For this branch of the staff no appointment on probation will be made without proof that the candidate is a fair accountant.

III. On an officer being selected as a probationer, he will, in the first place, appear before the nearest Divisional Pay-Master, who will examine him as to his general knowledge of accounts and book-keeping, and also question him as to the extent to which he has mastered the pay regulations of his presidency.

IV. His certificate, in form B., will be forwarded to Government, through the Controller of Military Accounts, and if it is found to be satisfactory, he will be appointed on probation.

V. This probation will extend over a year, and will be passed at the presidency. During this period he will be employed under the orders of the Controller of Military Accounts, and be attached in succession to the different branches of the Controller's department.

VI. At the end of this time, on the Controller reporting that the candidate has been regular in attendance, and gives promise of being useful in the department, he will appear before a committee composed of the Controller, the Military Accountant, and a Pay Examiner.

VII. The examination will embrace the practical branches of arithmetic and book-keeping, as well as questions involving a ready acquaintance with pay and audit rules, and the general principles on which these rules are based.

VIII. The examination will be conducted by means of a series of written questions, and by testing the ability of the candidate to check selected abstracts and bills.

IX. If the report of the committee be favorable, the candidate will be confirmed in the accounts branch, and attached to an office at the presidency, or to one of the large Divisional Pay offices.

5. *Appointments in the Commissariat Department.*

I. The period of probation in this department will be one year ; but before a candidate can be appointed as a probationer, he must pass a preliminary examination, and before he can be permanently appointed to the department he must pass a final examination on the expiry of the year of his probation.

II. The subjects of the preliminary examination will be—

1. The rules of arithmetic, including vulgar and decimal fractions, involution and evolution ; mensuration and the computation of areas and solid contents, and the system of book-keeping by single and double entry.

2. He will also be required to read aloud correctly and with tolerable ease three Urdu or Hindustani papers. These papers are to be taken from official records at random, and written (in the Persian character) by different persons in fairly legible running hands. After having read them aloud the candidate must explain their contents in English correctly.

III. He must translate, without assistance, from English into Urdu and Hindi, an instruction to a subordinate commissariat officer, or other official paper to be furnished by the examining committee. The translation must be precise and correct in meaning, and perfectly intelligible to a native, tolerably correct in grammar and spelling, and free from any very bad errors of idiom.

IV. He must dictate with some fluency the translation into Hindustani of an English letter, or other official paper, also to be furnished by the examining committee, whereof the translation will be written down exactly as dictated. The dictated paper must be intelligible and correct in meaning.

V. He must undergo a thorough and careful test in conversation with two or three natives in such manner and to such extent as shall suffice completely to satisfy the committee as to the degree of his power of understanding natives of different classes, and of making himself understood by them both in common conversation and in the usual course of departmental business.

VI. The above lingual test will not be held to supersede the necessity of the candidates having passed the Hindustani or staff examination, which is one of the essential conditions attached to admission into the Staff Corps.

VII. The probationer will have to undergo his final examination at the expiry of his term of probation. The heads of the examination will be—

1. His acquaintance with his responsibility and duties in the care and custody of the cattle and stores under the charge of a commissariat officer.

2. His knowledge of the system of procuring supplies by departmental agency or contract, as circumstance may require, and the rules affecting the preparation of contract deeds and the liability of contractors.

3. His acquaintance with the mode of rationing European troops, and the different articles comprising their rations.

4. His acquaintance with the mode of rationing native troops, and the circumstances under which rations are issued to them.

5. His knowledge of departmental rules, and of the forms of returns furnished periodically to the heads of his department.

6. His ability to draw up with accuracy estimates and average statements of the cost of victualling troops and feeding cattle.

7. His knowledge of the equipments of cattle and stores required for the cavalry, artillery, and infantry, with reference to their numbers and the distance to be marched.

8. His knowledge of the animals in use for food, as to their breeding and where the best are produced ; where the best transport animals are found, and the weight they respectively carry.

9. His facility in reading Gomashtah's accounts as presented in Persian or Hindi, and in writing purwannahs in the above languages.

10. His ability to prepare monthly disbursements from the checked accounts of native agents, with an account current, and his knowledge of the vouchers required to support charges under the different heads of expenditure.

11. His acquaintance with the general system of accounts in the Commissariat department.

VIII. The preliminary examination will be held at head quarters of divisions, and conducted by the senior commissariat officer and Executive Engineer or officer acting as such. The committee will test the candidate's acquaintance with arithmetic, by requiring him to show not only the answers to the arithmetical questions but the details by which they are worked out. He will prove his knowledge of the fundamental rules of book-keeping, by furnishing written replies to a series of questions which will be given him by the examiners.

IX. The examination in the native languages will be conducted by the Government Board of Examiners or other qualified committee.

X. The examination in the final test will be held at the presidency, and will be conducted by a committee composed of a selected civil officer, the Deputy Commissary General of the circle, and the Examiner of Commissariat Accounts. A selected Field Officer of a British regiment will be associated with the committee in that part of their examination which relates to the rationing of British troops.

XI. On nomination to the department on probation an officer will, under the orders of the Commissary General, proceed at the public expense to join one of the first class executive charges for six months, for the purpose of learning the executive duties of the department. At the expiration of this time he will proceed to the office of Examiner of Commissariat Accounts, and remain

there three months to learn the system of audit. For the remaining three months he will join the presidency office, and will there appear before the committee for his final examination, as set forth above.

6. *Appointments in the Stud Department.*

I. The period of probation in this department will be one year. There will be no preliminary examination. At the expiry of the term of probation, the probationer will be examined by a committee, who will forward their report to the Government for approval.

II. This committee will be composed of the Superintendent, or in his unavoidable absence, a Deputy Superintendent as President, with the next senior available Stud Officer, and a selected Field Officer or Captain of cavalry as members. A selected Veterinary Surgeon will be associated with the committee during the examination of the candidate under heads 5, 6, and 7, as hereafter laid down.

III. An officer selected on probation will join a stud depôt, and the Deputy Superintendent of the Stud will be required to see that he is punctual in attendance during office hours; that he attends stables regularly; that he accompanies the depôt officer in his tours of inspection of the stud stock of the breeding districts; and that he attends all purchases of the same by the Deputy Superintendent of the Stud.

IV. The Deputy Superintendent will furnish the examination committee with a certificate that the probationer has fulfilled the foregoing conditions. He will also state whether, from his personal observation, he considers him likely to make a good stud officer. The qualities to be considered in forming this estimate are, intelligence, industry, activity, health to enable him to bear considerable exposure, willingness to learn, a fondness for and knowledge of horses, and temper and disposition likely to render him popular with natives.

V. The subjects of examination will be—

1. Arithmetic, including vulgar and decimal fractions, and the system of book-keeping by single and double entry.

2. His aquaintance with his responsibility and duties in the care of stud cattle and stores under the charge of a depôt officer.

3. His knowledge of the system of procuring gram and fodder for the stud cattle, both by contract and departmental agency.

4. His knowledge of departmental rules, and of the form of returns furnished periodically to the heads of the department.

5. His knowledge of the management of and feeding young cattle on admission into stud stables.

6. His knowledge of what constitutes unsoundness in horses, his ability to age them from inspection of their teeth, and his ability readily to discover external injuries in any way received by stud cattle, together with some general knowledge of the veterinary art and shoeing.

7. His knowledge of the qualifications of horses, their power, shape, action, &c., and for which branch of the mounted service they are best fitted.

8. His ability to make out estimates, and the average cost of the feed of cattle.

9. His ability to prepare monthly disbursements from checked accounts of native agents, with an account current, and his knowledge of vouchers required to support charges under the different heads of expenditure.

VI. The knowledge required under the 6th and 7th heads of examination will be tested practically; the probationer being required to class a stable of colts to the different branches of the service, rejecting such as he thinks unfit, and making any remarks regarding any unsoundness or peculiarities in any animal. The accuracy and judgment of this classification will be reported on by the committee.

VII. The remaining subjects for examination will be tested by requiring written answers from the candidate to a paper of questions which the committee will previously prepare.

7. *Appointments in the Survey Department.*

I. For this department the period of probation will be one year. This, under special sanction, may be extended to two.

II. For the Survey department in general, there will be two distinct classes of examination, viz :—

1st—For the Topographical and Revenue Surveys, and,

2ndly—For the Great Trigonometrical Survey.

III. In regard to the first, the preliminary examination will embrace the following subjects :—

1. A thorough knowledge of arithmetic, but more especially of involution, square and cube roots, arithmetical and geometrical progression, proportion or rule of three, vulgar and decimal fractions, logarithmic calculations, and mensuration of surfaces.

2. Elementary geometry—first four books of Euclid.

3. Algebra as far as quadratic equations, inclusive.

4. Elements of plane trigonometry.

5. Execution, in the presence of examiners, of topographical, mechanical, or civil drawing of a certain standard of excellence.

IV. The final examination, to be held at the close of the period of probation, will comprise—

1. The satisfactory execution, unassisted, of a small area of country, including the computation and entire mapping involved in the same.

2. Perfect use and knowledge of all the instruments employed in the department, and adjustment of the same.

3. The elements of nautical astronomy, sufficient for ascertaining time, azimuth and latitude.

V. These examinations will be conducted by the Surveyor General, aided by such professional officers selected by himself, to the number of two, as may be available.

VI. On passing the preliminary examination, the probationer will be attached to field parties to learn their practical duties in the field and during the recess.

VII. For the Great Trigonometrical Survey, the examination for the topographical branch will be as for the Revenue Survey.

VIII. For the Geological or higher branch, the preliminary examination will be theoretical only, comprising the usual course of mathematics up to conic sections, and the principles of construction of instruments in common use. The final examination will be theoretical and practical, embracing analytical geometry of three dimensions.—statics, dynamics, and astronomy; the construction of the intruments of the Great Trigonometrical Survey, and a practical familiarity with their management.

IX. The examiner will be the Superintendent Great Trigonometrical Survey, with any two available officers of the department at his head quarters.

X. The degree of proficiency attained by candidates will be ascertained in both branches of the Survey department by written examinations, the questions being framed at departmental head quarters.

XI. Officers holding Staff College or Civil Engineering College certificates of qualification, or officers of Engineers, will be exempt from undergoing any preliminary examination, and will, on being nominated, at once enter as probationers.

REVENUE.

The 23rd June 1864.

Notification.—His Excellency the Viceroy and Governor General in Council has much pleasure in notifying, for general information, that the Maha Rajah of Cashmere has revised his Customs Tariff and reduced the existing rates of duty levied on goods passing through his territory, as shown in the following tables.

The duties formerly taken by weight or mule load have now been converted into an *ad valorem* rate chargeable according to the value stated in the invoice on goods proceeding—

1. By Jummoo and Bunnihal,
2. By Ukhnoor, Boodhil and Sumat, ...
3. By Bhimbur, ...
4. By Gohalun, ...
5. By Mozuffurabad, ...

} To Shrinuggur and Ladakh.

6. By Jummoo and Kishtwar, to Ladakh direct.

The rates on goods proceeding to Leh by the Koolloo route are shewn in table II. A.

Tables I. B. and II. B. show the changes which have been made in the rates chargeable on goods exported to the Punjab from Yarkund, or the Maha Rajah's dominions, whether by the Cashmere, Jummoo, Koolloo, or Bussahir routes. But the duty on goods coming from Leh to Shrinuggur and onwards is not shewn.

The duties are not levied on the frontier of the Maha Rajah's territories, but at the towns, and vary with the distance.

Tables III. A. and III B. show those at Jummoo, which it will be seen are lower there than at Shrinuggur. A trader buying goods at Jummoo, and taking them to Shrinuggur or to Ladakh, will have to pay the difference between the rates of those places.

In supersession of the former practice of exacting full customs duties on all goods entering Shrinuggur, a uniform rate of only five per cent. will henceforth be charged on such as may be in transit to places beyond.

His Excellency in Council hopes that the adoption of this liberal and enlightened policy by the Maha Rajah of Cashmere will result in an extended trade with the town of Shrinuggur, the populous valley of Cashmere, and ultimately with Eastern Toorkistan.

No. 582 *of* 1864.—With reference to G. G. O. No. 157, dated 25th February 1864, the following letter from the Right Hon'ble the Secretary of State for India, No. 155, dated 25th May last, is published for general information.

Military. *India Office,*
No. 155. *London the 25th May* 1864.

To His Excellency the Right Honorable the Governor General of India in Council.

Sir,—In your Military letter dated 5th March, No. 90, you inquire, with reference to my Despatch dated 24th August last, No. 300, which transmitted a Regulation supplementary to the rules regarding Prize distribution, to be applicable to non-combatant officers holding relative rank with Military officers, whether this modification of the Prize money distribution scheme is to have retrospective effect.

2. I infer that your inquiry relates to Medical officers, whose relative rank was the subject of my Despatch.

3. It is a well established rule of the service, that officers share in Prize money according to the rank and standing held by them at the date of the captures for which the Prize money is distributable. The relative rank of Medical officers as now enjoyed by them, was fixed by Her Majesty's Warrant of the 1st October 1858. The Prize money now distributable was taken before this date.

4. Under these circumstances, I am of opinion, that the supplementary Regulations should not apply to the Prize taken during the Military operations of 1857-58.

The 15th July 1864.

No. 586 *of* 1864.—It is announced for general information, that the provisions of the G. O. No. 279 of the 29th March 1864, granting good conduct pay after shorter periods to privates of the native army, are equally applicable to drummers.

No. 450.—The following extract, No. 1562, from the Proceedings of the Government of India, in the Financial Department, under date the 28th July 1864, is published for general information :—

READ extract from the Home Department, No. 1385, dated the 13th instant, forwarding for consideration and orders a copy of a letter from the Reverend J. Dawson, an Assistant Chaplain of the Church of Scotland, attached to the 71st (Highland) Regiment of Light Infantry, and recommending the adoption of his proposal that a Chaplain or Assistant Chaplain "set apart for regimental work" should draw tentage at Rupees 75 per mensem, from the date of his transfer to the Military Department, instead of travelling allowance at a rate per mile on transfer from one regiment to another.

RESOLUTION.—The Governor General in Council is pleased to sanction the above arrangement.

The 5th August 1864.

No. 451.—The following extracts from the Proceedings of the Government of India, in the Financial Department, are published for general information :—

No. 682.

The 2nd June 1864.

READ the following letters regarding the proper interpretation of some of the rules for Deputation Allowance to Military Officers in Civil employ, which were promulgated in Financial Notification No. 5914, dated 28th November 1863, viz. :—

Letter from the Civil Paymaster, North-Western Provinces, No. 263-112, dated 6th November 1863.

Letter from the Civil Paymaster, Fort William, No. 3892, dated 17th March 1864.

Letter from the Civil Paymaster, Fort St. George, No. 68 dated 21st March 1864.

RESOLUTION.—The Governor General in Council is pleased to decide, that when Deputation Allowance is given, under the orders of 28th November 1863, to a Military officer acting in a civil appointment, it shall be given at the actual sum admissible according to the percentages therein authorized, even if it be less than Rs. 200 per mensem.

When a Military officer acts in a civil appointment to which a consolidated salary is attached, his Deputation Allowance will be computed on the net staff pay comprehended in that consolidated salary, if he be doing the duties of another substantive appointment in addition, but on the gross consolidated salary if he be serving exclusively in the acting appointment.

No. 1577.

The 28th July 1864.

Read again the Resolution No. 682, passed in this Department on the 2nd June 1864, deciding that when a Military officer acts in a Civil appointment to which a consolidated salary is attached, his deputation allowance will be computed on the net Staff pay comprehended in that consolidated salary, if he be doing the duties of another substantive appointment in addition, but on the gross consolidated salary if he be serving exclusively in the acting appointment.

Read a letter from the Officiating Civil Paymaster, Bombay, No. 574, dated the 1st July 1864, and a Memorandum from the Civil Paymaster, Fort William, No. 4325, dated the 5th idem,

RESOLUTION.—The order of 2nd June 1864 conformed to the literal interpretation of the despatch of the Secretary of State, dated 31st August 1863; but on reconsideration it is evident that the word "Staff," which occurs in the 4th clause of the 34th paragraph of the despatch, has been inadvertently used before the word salary. The Governor General in Council is accordingly pleased to rule, with reference to the 1st clause of the 34th para., that the deputation allowance of a Military officer officiating in a Civil appointment to which a consolidated salary is attached, shall, whether he be relieved of his substantive duties or not, be calculated on the gross consolidated salary of the appointment in which he is officiating, that being the principle on which Deputation allowance, when granted to Covenanted civil servants, is computed.

Major General Sir P. Melvill, K. C. B.

3. I herewith transmit, for your Excellency's information, a copy of their report, which Her Majesty has been pleased to order to be laid upon the tables of both Houses of Parliament.

4. I have, at the same time, to inform your Excellency of the steps which Her Majesty's Government have felt it to be incumbent upon them to take, in consequence of the opinions expressed by the Commissioners in that Report.

5. Before doing so, however, it seems to me to be necessary that I should advert, shortly, not only to the reasons for the changes which have been introduced into the Indian Army in the last few years, but also to the general character of those changes. It might otherwise be supposed, from the complaints which have been made by many of the Indian Officers, that the changes were unnecessary, and that no advantages had been conferred upon them in the various measures which have been adopted. Neither of such suppositions is warranted by the circumstances of the case. That great changes in the state and condition of the Indian Army were necessary, was self-evident. The recent mutiny had shown the danger of maintaining an overgrown Native Army; Parliament had determined on abandoning the system of maintaining a separate European force for Indian service; the obvious evils of withdrawing Officers from their regiments for Staff employment had been forcibly pointed out by some of the ablest Indian Officers; a reorganization of the Native Army, on the system of the regiments known as "Irregular Regiments," was recommended by many of the most experienced Indian servants. These two last-mentioned considerations pointed unmistakably to a measure which had frequently been under consideration in former years, *i. e.* the formation of a Staff Corps. It was also considered desirable, on general grounds, to remove as far as possible all distinctions between the Officers of Her Majesty's general and Indian Armies, and to form them prospectively into one united body, retaining for the Indian Officers in the meantime such advantages as were peculiar to their service.

6. It might, perhaps, have prevented a good deal of misunderstanding if the measures for these various objects which were distinct in themselves had been undertaken separately, but so much change was inevitable, and it was so desirable that the full extent

of any changes should be known at once, and that men's minds should not be left in uncertainty as to their future condition, that it was determined to carry into effect, without loss of time, all the measures required for the changes which were to be made.

7. It is hardly necessary to assure your Excellency that, in framing the various measures for this purpose, both Her Majesty's Government and the Secretary of State and Council of India were desirous of showing the greatest consideration for the Officers and men who might be affected by the change, and it was their earnest wish to act towards them in the most liberal spirit, consistently with a due regard to the charge which might be imposed upon the finances of India.

8. The measures which have been adopted are, the transfer of nearly all the Officers and men of the European Cavalry and Infantry of the Indian Army, with their own consent, to new regiments of the line in Her Majesty's general army; the completion of the assimilation of the organization of the Indian Artillery and Engineers, with that of the Royal Artillery and Engineers, which had been partly made in 1858; the reduction of the Native Army, and its reorganization on a different system; and the formation of a Staff Corps, as the best mode, under the altered circumstances of the service, of providing Officers for the Native Army, as well as those required for the various and miscellaneous Staff duties of several departments, Civil and Military, which have heretofore been so well performed by Officers withdrawn from regimental duty for that purpose.

9. It was, perhaps, not to be expected that in such extensive changes every Officer should retain his existing position unaltered, but a very short review of what has been done will show that upon the general body of the Officers of the Indian Army great advantages have been conferred, and that many even of those who complain of being injured in some one respect have, nevertheless, gained on the whole, in their position and prospects.

10. It is unnecessary to remark upon the position of those Officers who voluntarily joined the new line regiments, except to observe that many of them have obtained more rapid promotion than they would have done under the old system.

11. The assimilation of the organization of the Indian Artillery and Engineers to that of the Royal Corps has been greatly beneficial to the former, in augmenting the proportion of Officers of the higher grades,* giving promotion thereby and increasing the charge on account of their pay and allowances.

* In the Bengal Artillery, for instance, from 36 Field Officers in 1858 to 49 in 1861.

12. The only change unfavourable to them was that of a reduction of the number of Colonel's allowances. Such reduction, however, is to be made very gradually, and, with a view of meeting the cases of certain Officers whose prospects might be affected directly or indirectly by the reduction, a limited number of special annuities were offered to the Colonels of these Corps.

13. Seven Colonels of Artillery and six Colonels of Engineers have retired from the service on the pension of their rank, with the addition of these special annuities, and promotion has been made in their places.

14. The extent to which these two Corps have upon the whole benefitted by the recent changes may be, in some degree, measured by the fact that the increase in pay and allowances in the two Corps, due to those changes, amounts to a sum considerably above 100,000*l.* per annum.

15. I have already reminded your Excellency of the reasons which led to the formation of a Staff Corps, and to the arrangements connected therewith.

16. The system of promotion by length of service, introduced into these Corps, was the only system suited to their position and circumstances. It was impossible to fix any number or establishment for these Corps, inasmuch as the requirements of the service and the number of Staff appointments must vary from time to time. The promotion of the Officers could not, therefore, be made dependent upon vacancies in a fixed establishment of the several grades.

17. A certain length of service in each grade, calculated on about the average length of service in the British Army, was therefore fixed as qualifying for promotion.

18. It had been suggested that the Staff Corps should be formed gradually, and as required, by means of young Officers from Her Majesty's general army, whilst those of the Indian Army who might be appointed to Staff situations should remain in their regiments as heretofore. The objections to this course have been already adverted to, and it was considered fair to give, as far as possible, to the Officers of the old service the advantages of serving under the rules and conditions laid down for the Staff Corps. All Officers, therefore, who were, or within certain periods had been, in permanent Staff employ, were invited to join it. About 1,300 Officers have already joined those Corps, and participated in the advantages given to the Staff Corps.

19. It thus appears that of the Officers of the Indian Army, those who joined the line regiments, the whole of the Artillery and Engineers, and those who joined the Staff Corps, have been generally benefitted by the change.

Line Regiments, ...	403
Artillery, ...	670
Engineers, ...	277
Staff Corps, ...	1,318

20. If to this number be added the whole of the Officers* who entered the service since 1858, on conditions subject to any change that might be introduced into the service, it will be seen that there will remain a comparatively small number who can have any real cause of complaint. I will now advert to the circumstances by which some of them may have been affected.

* 679.

21. That the reduction in the Native Army to the extent of about 130,000 men should render the existing number of Officers too many for the future requirements of the service needs no demonstration.

22. During the mutiny, 62 regiments of Native Infantry and 10 of Native Cavalry in Bengal had disappeared from the service. The new regiments which were raised were organized on what has been called the irregular system, with fewer Officers. In Madras 4 regiments of Native Cavalry, and 8 regiments of Native Infantry were reduced; and in Bombay 3 regiments of Native Infantry were reduced. Upon the whole, therefore, there was a reduction of 83 regiments officered on the old system.

23. That after the administration of India had been transferred to the Crown, it was the duty of Her Majesty's Government in the existing circumstances to reduce the Native Army, as it would have been the duty of the East India Company if such transfer had not been made, cannot be doubted; and

it was the wish and intention of Her Majesty's Government to act towards the Officers of that Army as the East India Company would have done, if the same necessity of reduction had been imposed upon them.

24. According to the system pursued in the British Army, all the Officers of the regiments reduced would have been at once placed on half pay. The Indian Officers, on the contrary, were all retained on full pay and with the prospect of promotion continued to them.

If the practice of the English Army had been adopted, a considerable saving of expense would have been made, to the extent of the difference between the permanent half pay of the rank which each Officer held on reduction, and the full pay not only of such rank but also of the increased rank which the Indian Officer might attain, and in such case the promotion of the Officers who remained would not have been affected.

When, however, the whole body of Indian Officers was retained on full pay, it was nevertheless reasonable that some reduction in the expense of the Officers who were retained beyond the requirements of the service should be effected, and such reduction could not be made without some retardation of promotion.

25. The actual retardation will be to a very small extent, and in particular ranks. The general promotion of the Indian Officers will be accelerated, and to every Officer, including the cadet who entered the service so lately as December 1861, his promotion through every grade, with the pay thereunto belonging, as if the whole Native Army of India had been kept up, is assured, and his right to Indian pension is maintained.

26. The two cases in which reduction is made and in which promotion may be affected are in the establishment of regimental Colonels and in that of regimental Lieutenant Colonels.

27. With regard to the first, some reduction necessarily followed a diminution in the number of regiments, but the reduction will be gradual. In order to facilitate the second, a certain number of the older Officers under the rank of Colonel, were invited to retire on largely increased pension. The whole of the vacancies in the rank of Lieutenant Colonel created by this extraordinary measure of retirement were not filled up, but it was accompanied by great and unusual promotion throughout the whole of the ranks below that of Lieutenant Colonel.*

28. These are the only measures of reduction which affect the European Officers; and for the complete reduction of the number of Officers to a level with the requirements of the service, the Government look to the cessation of new appointments and the ordinary casualties by death and retirement.

29. That every Officer should be in precisely the same situation as if no change had been made: that an Officer should retain all the advantages which he would have enjoyed if the Native Army had been kept up to nearly twice its present amount; that a great reduction should have been effected, and everybody be left in the same position as before, was simply impracticable; but, I think, it may be confidently maintained that there never was a reduction and change of system effected with so large and liberal a consideration for the interests of the persons to be affected by the change, the immediate increase of pay and pensions being not less than a quarter of a million per annum, and that nothing has been done that the East India Company might not have done as regards the Officers of the Indian Army.

30. The number of memorials and petitions, however, from Indian Officers that have been presented upon this subject has shown the impossibility of carrying out any great change in an organized body such as the Indian Army, however beneficial such change might be in general, without giving some occasion to individuals for considering themselves aggrieved.

31. You will observe that the measures which, in the various memorials referred to the Commission, have been complained of as departures from the Parliamentary guarantee, have been classified by the Commission under the following heads :—

1st. The retention of the names of Officers appointed to the Staff Corps on the cadres of their former regiments.

2nd. The supersession in Army rank to which Officers remaining with their regiments have been subjected, by the promotion of Officers joining the Staff Corps under the regulations established for promotion in that Corps.

3rd. The retention upon the cadres of their former Corps of the names of Officers who joined the new line regiments from the old European regiments of the Indian Army.

4th. The retention on the cadres of Native Corps of the names of Officers who joined the new line regiments from such Corps.

5th. The retardation of promotion caused by the employment of Officers of the Staff Corps whose names are retained, on duties involving less risk to health and life than those connected with regimental employment.

6th. The retardation to promotion caused by the retention on the cadres of the names of Officers who have joined the new line regiments, they being employed generally on duties less likely to create casualties than if they had remained with their regiments.

7th. The arrangements made for regulating future succession to the Colonel's allowance in the Ordnance Corps.

8th. The arrangements made for regulating future succession to the Colonel's allowance in the Cavalry and Infantry.

9th. The reduction in the number of regimental Lieutenant Colonels, by making promotion in succession to one-half only of the Officers of that rank who accepted the special annuities offered to them on retirement in 1861.

10th. The effect produced by the late measures in interfering with the operation of funds established with a view of offering inducements to senior Officers to retire.

11th. The regulations under which Officers in receipt of Colonel's allowances are precluded from receiving Indian allowances while residing unemployed in that country.

12th. The order of the Government of India, No. 1070, dated 23rd July 1859, revoking so much of the Order No. 1238, dated 27th August 1858, as related to the ante-dating the Commissions of certain Lieutenant Colonels of Artillery and Engineers.

13th. Arrangements for the future promotion of Officers of the Indian Army to the rank of General Officer.

32. In addition to the above alleged grievances, the Commission have noticed, in the 82nd and following paragraphs of their Report, a few further complaints to which they do not think it necessary to advert in detail. These are not considered by the Commission to be in violation of the Parliamentary assurance, and are merely noticed to show that they were not overlooked.

33. Her Majesty's Government have given the most serious attention to this Report, which appears to have been drawn up with much deliberation and care. They are desirous of adopting such measures as shall meet the complaints declared by the Commission to be well-founded as fully and completely as possible, and at the same time with the least possible disturbance of the now established order of things.

34. It will be seen that upon the 1st, 3rd, 5th, 6th, 7th, 10th, 11th, and 12th of the above complaints, the Commission have given their opinion that the measures complained of cannot be considered as infringements of the Parliamentary guarantee.

35. With reference to the 8th and 9th they have expressed themselves unable to form an opinion at present, but consider that the measures should be judged by the effect which may be produced by them in the cases of individual officers.

36. In regard to these, the Commission consider doubtful—

1st. The regulation by which 12 years is made the period of service in the grade of Lieutenant Colonel; and,

2nd. The reduction of the number of regimental Lieutenant Colonels, by making promotion in succession to one-half only of the officers of that rank who accepted the special annuities offered to them on retirement in 1861.

37. Upon the first of these, the Commission remark as follows :—

"The new rule, however, is not to affect the Lieutenant Colonels who attained that rank before the date of the new system, and so the question whether 12 years is a fair average for the future for the three Presidencies will be tested by the time at which these Lieutenant Colonels will succeed to the allowances in question, and if it should be found that they have obtained them generally in less than 12 years, we consider that unless the shorter average period be adopted the guarantee will not have been strictly adhered to."

38. Upon the 2nd, the Commission having given their attention to the amount of benefit in the shape of promotion derived by the several regiments by the retirement under these special annuities, observe—

"We are unable to calculate the loss or the advantages, varying as they do, which may have fallen to the lot of the different regiments, but we think that where loss can be ascertained to have taken place, there the guarantee has not been strictly adhered to."

39. In reference to both these measures, it may be necessary to explain more fully their scope and object. They were connected with and arose out of the reduction in the Army in India.

40. While anxious to avoid, as far as possible, any interference with the prospects and privileges of the officers of the Indian Army, Her Majesty's Government considered themselves not only justified in making, but bound to make, such reduction in the Native Army of India as the exigencies of the service might admit of ; nor did they consider themselves precluded from doing so by the Parliamentary guarantee.

41. In this view of the scope and intent of the Parliamentary guarantee the Commission clearly concur, as they observe, "It could not have been "intended to prevent the Crown, if, in the interests "of India and of the empire at large, it should deem "it necessary, from reducing the numbers of the "Indian Army or altering its organization. It would "have been in the power of the Company to make "such reductions and changes, and a similar power "was transferred to the Crown."

42. The number of Native Regiments as well as the aggregate strength of Native Force, having been largely reduced, and the whole of the remaining force being about to undergo a complete change of regimental organization, Her Majesty's Government considered that a reduction in the number of Colonels and Lieutenant Colonels was not only necessary but just.

43. With the view of effecting the reduction in the former, it was in the first instance ordered by my Despatch No. 27 of the 18th January 1861, that three Lieutenant Colonels only should be promoted for every four vacancies among the Colonels.

44. It was at a subsequent period determined that additional annuities, calculated generally at the value of the prospective Colonel's allowance, should be offered to a limited number of Field Officers, and for the plan of reducing the number of Colonels first proposed was substituted the more equable mode of effecting the same object, by allowing the names of the retired Lieutenant Colonels to remain on the list until they came into the position of Colonel, and then removing them.

45. Certain Officers low down in the list complained that this would ultimately retard their promotion to a serious extent, and, as a security against such retardation, the rule was adopted of giving the Colonel's allowance after 12 years to Officers who might not have attained that position in the ordinary course at an earlier period.

46. To the Lieutenant Colonels of and subsequent to the 1st January 1862, who had, as a consequence of the numerous retirements under the annuity scheme, attained to that rank, in many cases several years before they otherwise would have done so, the period of 12 years was laid down absolutely as the term of service in the grade of Lieutenant Colonel qualifying for promotion to the Colonel's allowance.

47. By this rule, one Lieutenant Colonel of the Madras Army has already obtained the Colonel's allowance at a much earlier date than he would have done under the old system, and others are likely to be similarly benefited, nor is it probable that more than a very few cases can occur in which an Officer will not attain the Colonel's allowance after a shorter total period of service, even though he may remain rather longer in the grade of Lieutenant Colonel.

48. With regard to the contemplated reduction of Lieutenant Colonels, the offer of annuities acceptable to a large proportion of the existing Officers of that grade presented a favourable opportunity of effecting this object, with little injury to the interests and prospects of the service at large.

49. Promotions to the full extent of these extraordinary retirements were not made. One-half only of the number of Lieutenant Colonels retiring have been filled up, but promotions were made in succession to the whole of the Majors and Captains who retired. By these extensive promotions many officers were placed several years in advance of the position they would otherwise have held, and the position of every Officer

below them in the Army was more or less improved thereby.

50. Her Majesty's Government feel confident that while large reductions in the number of the British Officers of the Native Army were imperatively called for, and will for the most part be effected by the cessation of new appointments to the Indian Army, the reduction now made, moderate in itself, has been carried out in a manner which will be found to have no injurious effect upon the interests of the Army at large, while such an extraordinary impulse has been given to promotion as cannot fail to influence the whole career of each individual and to compensate for any subsequent retardation that may be anticipated from a reduction in the higher grades.

51. The measure by which it was intended that some reduction of establishment should be combined with accelerated promotion has been attended with unequal effect in the several Presidencies, and it appears necessary that the inequality should be rectified.

In 1861, the establishment of regimental Lieutenant Colonels at the three Presidencies, was as follows :—

		Cavalry.	Infantry.
Bengal	...	10	80
Madras	...	8	58
Bombay	...	3	35

52. It appears that the officers of the rank of Lieutenant Colonel accepted the annuities in 1861 in varying proportions for the several Presidencies, and that their present relative numbers, including the names of officers of the Staff Corps and new line regiments, vary accordingly, viz.,

		Cavalry.	Infantry.
In Bengal	...	7	59
In Madras	...	5	39
In Bombay	...	3	23

exclusive of General Officers, who are supernumeraries. It has been determined to apply to the Presidencies of Madras and Bombay the same proportionate reduction of officers of this rank as has been effected in Bengal by the annuities, so that the establishment of Lieutenant Colonels of Cavalry and Infantry in the three Presidencies shall stand hereafter as follows :—

		Cavalry.	Infantry.
Bengal	...	7	59
Madras	...	6	43
Bombay	...	3	26

such establishment being exclusive of Lieutenant Colonels having the rank of General Officer.

53. I have now to notice the three subjects of complaint which the Commission have considered to be well-founded. These are—

1*st*. The supersession of regimental officers by the promotion of their brother officers under the Staff Corps rules.

2*nd*. The retention on the cadres of Native Regiments of the names of officers transferred to the new line regiments; and,

3*rd*. The arrangements laid down in the Royal Warrant of 1st January 1862 (as far as they affect the officers of Cavalry and Infantry of the Indian Army), for regulating the promotion of Colonels of the Indian Army, of date subsequent to the 17th February 1861, to the rank of General Officer.

54. The Commission are unanimous upon two, and those the most material, of these three points, and Her Majesty's Government, although their own views may not be changed, are, nevertheless, prepared to accept the opinion of the Commission on these questions, and have given their most careful attention to the various measures that have been suggested for meeting and remedying the grievances which, in the opinion of the Commission, appear to be well-founded.

55. With respect to the second of the above three complaints, considered by only a majority of the Commission to be well-founded, Her Majesty's Government have determined, in deference to the opinion of the majority, that the names of the Officers who joined the new line regiments from Native Cavalry and Infantry, including the cadres of the 4th and 5th Regiments of European Cavalry, and of the 4th, 5th, and 6th Regiments of European Infantry in Bengal, which were formed from Native Regiments, shall be removed from the cadres of their former regiments, and that promotions shall be made in their places.

These promotions will date from the 18th of February 1861.

56. The third of the complaints recognized by the Commission as well-founded, is the proposed amalgamation of the list of Colonels of the British and Indian Armies, by which it is considered that the advancement of the Indian Officers to the rank of General Officer would be unduly retarded.

57. The effects of the Royal Warrant of the 1st January 1862, by which the arrangements for the future amalgamation of the Field Officers of the British and Indian Armies were laid down, is altogether prospective. No promotions have yet been made under that Warrant, and there is no difficulty in altering this arrangement.

58. Her Majesty's Government have, therefore, determined so far to modify the provisions of that Warrant as to retain the whole of the Officers of the Cavalry and Infantry of the Indian Army on the general list of that service as before for promotion to the rank of General Officer.

59. With regard to the promotion of Officers of Artillery and Engineers to the rank of Major-General, the Commission have declared themselves unable to determine the effect produced by the Royal Warrant of 1st January 1862 upon the prospects which such of these Officers as were not Colonels before the amalgamation, would have of becoming General Officers; but they state that the change will ultimately, to a small extent, be beneficial to the Ordnance Corps.

60. It is desirable that the Officers of these Corps, which have become united to the Corps of Royal Artillery and Engineers, should, as soon as practicable, be withdrawn from the list of the Indian Army and placed on separate lists, as is the case with those of the Old Royal Corps, who rise to the rank of Major-General on separate lists. It has been determined, therefore, to give to each branch of the Ordnance Corps in India a separate establishment of General Officers, calculated in the same proportion as that which governs the establishment of General-Officers of the old Royal Artillery and Engineers.

61. According to this rule, there will be ultimately 26 General Officers allotted to the Indian Artillery, 12 to the Engineers.

62. All Artillery and Engineer Officers, being Colonels in the Army, of date prior to 18th February 1861, will continue to rise on the general list of the Indian Army.

63. Officers of those Corps who attain the rank of Colonel in the Army, on or after the 18th February 1861, will rise on the separate lists above referred to towards the allotted establishment of General Officers of each Corps.

64. As regards the Field Officers of the Staff Corps, it is most desirable that they should be

brought hereafter on to the general list of the British Army, and that this should be effected with the least possible disturbance of the present rate of promotion in either service, and it has been determined, therefore, to bring on to the list of the British Army all Colonels of the Staff Corps whose dates of commissions as Lieutenant Colonel are subsequent to the 17th February 1861, leaving all those who attained the rank of Lieutenant Colonel prior to the formation of those Corps to rise to the rank of General Officer on the Indian list. In these measures His Royal Highness the Field Marshal Commanding-in-Chief has concurred, and a Warrant for carrying them into effect has been submitted to and approved by Her Majesty. I enclose a copy for your information.

Dated 15th June 1864.

65. It only remains to consider the first of the above three complaints. In the opinion of the Commission, the extensive promotion made under the Staff Corps rules unnecessarily gave superior rank to many of the Indian Officers selected for those Corps, and caused extensive supersession of the Officers remaining with their regiments.

66. It is evident that a complete remedy for this supersession in army rank must be found either in the withdrawal of the rank given to the Staff Corps Officers, or in granting such army rank to the Officers of the Indian Army as shall restore them to the relative position, as regards the Staff Corps Officers, which they held before the formation of those Corps.

67. Her Majesty's Government would have been very reluctant to adopt the first of these two courses, which must have been productive of much embarrassment and disappointment to a very large class of deserving Officers, while the replacing of those Officers in their regiments would not have been without its disadvantages, even to the complainants themselves.

68. It has been considered, therefore, that the only satisfactory course open to the Government is to confer upon the Officers of the Indian Army, generally, such army rank as shall entirely remove all ground for complaint upon this head, by restoring to all who had been superseded the relative position, as regards the Staff Corps Officers, which they held before the formation of those Corps.

69. Her Majesty's Government believe that the object in view can be effectually attained, by an extension of a system which has for many years existed in India of giving brevet rank by length of service, heretofore applicable only to the promotion of Subalterns, and by granting to the Officers of the Indian Service army rank under the following rules, the adoption of which has, with the concurrence of His Royal Highness the Field Marshal Commanding-in-Chief, been determined upon, viz:—

That all Officers, whose Commissions bear date on or before the 18th February 1849, shall be promoted to the rank of Captain by brevet.

All Officers, whose first Commissions bear date on or prior to 18th February 1841, shall be promoted to the rank of Major by brevet; and,

All Officers, whose first Commissions bear date on or prior to 18th February 1835, shall be promoted to the rank of Lieutenant Colonel by brevet; all such promotions to bear date 18th February 1861.

After the 18th February 1861, Officers of the several Staff Corps, and of Her Majesty's Indian Army, generally, shall be granted brevet rank, under the following regulations;—

After 12 years' standing in the Army from date of first Commission, to be Captains.

After 20 years' do. do. Majors.

Do. 26 do. do. do. Lieutenant Colonels.

On and after the 18th February 1866, all Officers who have served 31 years on full pay, 5 of which shall have been in the grade of Lieutenant Colonel, to be promoted to the rank of Colonel by brevet.

70. His Royal Highness the Field Marshal Commanding-in-Chief has expressed his intention of recommending to Her Majesty that the Officers of the British Army serving in India, including the Ordnance Corps, shall have army local rank in India conferred upon them, after precisely the same periods of service and under the same rules, special provision being also made in cases where line and Indian Officers may serve together elsewhere.

71. It is to be understood that the system of promotion to brevet rank now introduced will cease in its application to the several grades of the Army on the extinction of those grades among the Officers of the Indian Army. Thus, when the whole of the Lieutenants of the Indian Army shall have been promoted to the rank of Captain, the promotion of Officers in the Staff Corps to the brevet rank of Captain under the above rule will be discontinued, and so on with the higher grades.

72. Her Majesty's Government have thus endeavoured fairly to meet the complaints which have been addressed either to Parliament or to the Government, and the measures which they have adopted, although not free from some objections remove the three cases of grievances which the Commissioners reported to be well-founded. Her Majesty's Government, however, being anxious to extend to the Officers of the Indian Army every boon which can be given consistently with fairness to other branches of Her Majesty's service, and without imposing any undue charges on the revenues of India, have determined on adopting a further measure which will be attended with considerable benefit to the Indian Officers.

73. Your Government will have observed, that one of the principal complaints made by the Officers of the Indian Army related to the retention on the cadres of regiments of the names of Officers who had joined the several Staff Corps.

74. The Commission do not consider that this arrangement, necessary as it was from the circumstances of the case, was an infringement of the Parliamentary guarantee.

75. Irrespective of the very great expense which would have been involved in the opposite course, *i. e.*, that of removing those names, and making promotions in their places,—a serious objection presented itself, in the very unequal promotion that would have been given in different regiments.

76. The latter objection does not apply to the removal of the names of Officers above the rank of Major from the general regimental list of the Indian Armies, and Her Majesty's Government have resolved that the names of Officers of the Staff Corps and new line regiments shall, on coming into the position of regimental Lieutenant Colonel on those lists, be struck out, and that promotion shall be made in their places.

77. Such promotion will be equably distributed, instead of operating unfairly in defferent regiments, and although some additional expense will be thus thrown upon the finances of India, the amount will not be very serious.

78. Her Majesty's Government have not overlooked the large increase which this measure will make in the number of Officers of the higher ranks

serving in India. It is impossible, however, that any measure which accelerates promotion should not have this effect; and Her Majesty's Government are glad to give this additional proof of the estimation in which they hold the services of the Officers of the Indian Armies.

79. In carrying out this resolution, it will be necessary to remove from the list of Colonels, with Colonel's allowance, the several Officers who have been transferred to the new line regiments, making promotion in their room on the principle laid down in my Despatch No. 320, dated 10th August 1861, paragraphs 17 and 18, and in like manner to strike out the names of all Officers of the Staff Corps and new line regiments now borne in italics, upon the list of regimental Lieutenant Colonels of Cavalry and Infantry in the three Presidencies, making promotion in their places up to the establishment laid down in a preceding paragraph (52). In making promotion, in future, from the list of Majors to that of Lieutenant Colonel, the name of every Staff Corps Officer, on coming on the list of regimental Lieutenant Colonels, will be struck out, and promotion made in his place.

80. You will give the necessary orders for making the arrangements for the prescribed establishment of Lieutenant Colonels for the three Presidencies; for the promotions in cadres of Native regiments, from which Officers have joined the new line regiments; for the promotions to brevet rank of the Officers of the Indian Army and of the several Staff Corps; and for removing from the list of Colonels, with Colonel's allowance, the names of the several Officers who have been transferred to the new line regiments, as well as those of all Officers of the Staff Corps and new line regiments now borne in italics on the list of regimental Lieutenant Colonels of the three Presidencies, and you will cause the necessary promotions to be made in connexion with these arrangements, and submitted to me for Her Majesty's approval.

Para. 52.
Para. 55.
Para. 69.
Para. 79.

81. With this measure, the arrangements as regards the Officers of the Indian Army will be closed. The advantages which have been conferred upon the majority of those Officers have already been pointed out, and it cannot be doubted that, under the system now established, the Officers of the Indian Army will, for the most part, attain to the several regimental grades, including that of Colonel with Colonel's allowance, in a shorter period of service than they would have done had the several Staff Corps not been formed, and had no change in the constitution of the Indian Army taken place. Her Majesty's Government trust that the Officers who are affected by the change will feel that, whilst a reduction of the Indian Army was indispensable, and a regard for the finances of the Indian Empire was an imperative duty, neither of these considerations have prevented the Government from showing that regard for their interests which the gallantry and services of the armies of India deserved.

HOME AND FOREIGN.

VICTORIA R.

Whereas it has been represented to Us that it is
7641/198 expedient to cancel the regulations (except Clauses 9 and 10 thereof) established by Our Royal Warrant of 1st January 1862, for the amalgamation of the General and Field Officers of Our Indian Armies with the General and Field Officers of Our Regular Army, and for the promotion of the Officers to higher rank: Our will and pleasure is, that instead of the provisions contained in Clauses 1, 2, 3, 4, 5, 6, 7, 8, 11 and 12 of the before-mentioned Regulations, which are hereby cancelled, those contained in the Regulations annexed to this Our Royal Warrant shall be established, and shall govern the promotion to the rank of General of the Officers of the Cavalry and Infantry of Our Indian Forces, the Officers of the Royal Artillery and Royal Engineers lately belonging to Our Indian Forces, and the Officers of Our several Staff Corps.

Given at Our Court at St. James,' this 15th day of June 1864, in the Twenty-Seventh Year of Our reign.

By Her Majesty's Command,

DE GREY AND RIPON.

REGULATIONS.

1. The whole of the Officers of Cavalry and
7641/198 Infantry of Her Majesty's Indian Army shall remain on the Indian General List, as before the Warrant of 1st January 1862, and shall rise on that List to the rank of General Officer; the establishment of General Officers of the Indian Army being, from time to time, reduced in the manner hereinafter provided.

2. The Colonels of Royal Artillery and Royal Engineers, late of the Indian Army who had attained that rank previously to the 18th February 1861, will continue to rise to the rank of General Officer on the Indian List; but when the last of such Colonels of Artillery or Engineers, as the case may be, is promoted to the rank of Major-General, the promotion of Officers in that branch of the service to the rank of General Officer upon the Indian General List shall in each case cease.

3. The whole of the General Officers of the Royal Artillery or Royal Engineers, as the case may be, on the Indian List of the three Presidencies, will in each case be then removed from that List and placed upon separate Lists for Indian Royal Artillery and Indian Royal Engineers, respectively, with an establishment of 26 General Officers for the former Corps, and 12 for the latter. If at the time of the creation of these Lists there shall be an excess in any grade of the General Officers of either arm above the prescribed establishment the supernumeraries shall be reduced by the absorption of one vacancy in every three; and if the numbers of Generals of either arm shall be less than the establishment, the numbers shall be completed by the promotion of the senior Colonels of Artillery or Engineers, as the case may be, on the united Lists of the three Presidencies, according to their army rank.

4. Vacancies in each of these Lists will be filled as they arise by the promotion of the senior Colonel on the Indian Lists of Artillery or Engineers, as the case may be, according to army rank, and this shall continue until all the Officers of the late Indian Artillery or Engineers, respectively, have risen to the rank of Major-General on their separate Lists. Then the General Officers on the Indian (Royal) Artillery List shall be incorporated with General Officers of the British Royal Artillery, according to dates of Commissions, and the General Officers of the Indian (Royal) Engineers with the General Officers of the British Royal Engineers. Thenceforward the establishment of General Officers of the Royal Artillery will consist of 58, and establishment of General Officers of the Royal Engineers of 28; and vacancies will be filled by the promotion of the senior Colonel of either Corps, according to army rank, under the Regulations of the British Service.

5. On the formation of separate Lists of General Officers for (Royal) Indian Artillery or Engineers, respectively, the whole of the Officers of the Indian Artillery or Engineers, as the case may be, including General Officers, will be removed from the List of the Indian Army and placed on the General List of the British Army; upon which the promotion up to the rank of Lieutenant Colonel inclusive will be made, indiscriminately with that of Officers of the Guards, Line, Royal Artillery, Royal Engineers, and Royal Marines, in succession to vacancies on the General Officers' List of the British Army and Royal Marines, and the Indian Royal Artillery and Royal Engineers thus amalgamated.

6. The number of General Officers on the present Indian establishment on account of the Ordnance Corps is 24 for the Artillery, and 11 for the Engineers. The Indian establishment of General Officers will, therefore, be reduced to this extent on the transfer of Generals of Artillery and Engineers to separate Lists. If at the time of transfer there shall be upon the Indian General List more than 24 Generals of Artillery, promotions shall be made from the Colonels on the General List of the Indian Army to the extent of the excess; if there shall be less than 24 Generals of Artillery at the time of transfer, the establishment of Generals on the Indian List shall be gradually reduced by the absorption of one out of every three vacancies until the reduction of 24 on account of the transfer of Officers of Artillery, shall be effected. The same course will be pursued in adjusting the transfer of Generals of Engineers.

7. Officers of the several Indian Staff Corps, who had attained the rank of Lieutenant-Colonel prior to the 18th February 1861, shall be promoted under Indian Regulations to the rank of Major-General on the Indian List, and shall rise on that List until they are transferred to the British Establishment in the manner hereinafter provided.

8. Officers of the several Staff Corps who had not attained the rank of Lieutenant-Colonel previously to the 18th February 1861, shall, as they respectively attain the rank of Colonel, be placed according to the dates of their commissions on the General List of Colonels of the British Army, from which promotions shall be made, according to seniority, in succession to vacancies on the British establishment of General Officers, under the Regulations of the British Service; and the Colonels so promoted shall continue to rise on that establishment from the rank of Major-General, by seniority, in succession to all vacancies in the higher grades.

9. In order to provide for the promotion of Officers of the Staff Corps so brought upon the General List of the Officers of the Army, the establishment of General Officers of the British Army shall be increased, and the establishment of General Officers of the Indian Army, upon which the Colonels of the Staff Corps of this class will no longer rise, shall be reduced in the manner following:—

10. Whenever a Colonel of the Staff Corps, whose name is borne on the Amalgamated List would, if he had remained on the List of Colonels of the Indian Army, have attained the rank of Major-General, an addition of one shall be made to the British establishment of General Officers by the promotion of the senior Colonel on the Amalgamated List, whether he be a British Officer or an Officer brought in from the Staff Corps; and no promotion shall in such case be made to the rank of Major-General on the Indian List, which will be thus reduced by one General Officer for every such increase given to the British establishment.

11. By this means the British List of General Officers will, from time to time, be increased, and the Indian List of General Officers will, from time to time, be diminished, until the number of Officers reduced on the List of General Officers of the Indian Army, and the number added to the List of the British Army, shall amount to one for every 28 combatant Officers on the aggregate strength of the three Staff Corps; and thenceforward all vacancies amongst General Officers on the British List, by whomsoever occasioned, shall be filled by the promotion of the senior Colonel on the Amalgamated List of the British Army, whether of the Guards, Line, or Staff Corps, as the case may be.

12. On the first addition of a Major-General to the British establishment being made in the manner laid down in paragraph 10, the whole of the Officers of the Staff Corps on the Indian List (including the General Officers) shall be transferred to, and take their places on, the General List of the British Army, according to the dates of their respective commissions, and shall rise thereon to the rank of Lieutenant-Colonel inclusive, in succession to vacancies on the General Officers' List, indiscriminately with Officers of the Guards, Line, Royal Artillery, Royal Engineers and Royal Marines.

13. As the number of General Officers on the British List increases, and the number on the Indian List diminishes, the establishment of Generals, Lieutenant-Generals, and Major-Generals on each List shall be, from time to time, so adjusted as to maintain as nearly as may be the proportions now existing in the British Service; but any reductions that may be requisite shall be made only by gradual absorption of every third vacancy amongst supernumeraries in the higher grades.

No. 671.—The following letter is published for the information and guidance of all Officers of the Judicial and Police Departments :—

From Officiating Advocate General, to Under Secretary to Government of India, dated 29th December 1863.

" In reply to your letter No. 7763, dated 12th instant, with enclosures, I have the honor to state my opinion on the several points raised in the correspondence.

I. " With regard to the Punjab Government reference, I think that section 6 of the Act V of 1861 does, in cases of necessity, authorize Police officers, who have been entrusted thereunder with the powers of a Magistrate, to issue warrants for the apprehension of offenders.

" The aim of the legislature is admitted to be the separation of the Judicial and Police functions. That general principle is not lightly to be departed from. The Police may, in the instance of the graver offences specified in the Criminal Procedure Act, arrest without warrant. But for lesser offences, and such as are more difficult of proof, it is provided that the Magistrate shall issue a summons or warrant.

" The definitions of the term " Magistrate" in the Criminal Procedure and Police Acts are identical. A Police officer vested with powers is a Magistrate, but section 6 of the Police Act expressly confines his exercise of Magisterial authority to certain specified objects, one being the apprehension of offenders.

" The issuing of the warrant is not a merely ministerial act, it is of the nature of a judicial act made in the discretion of the Magistrate on

some enquiry. Therefore, as I understand the general intent of the Criminal Procedure Act, this step in the Procedure is purposely entrusted to the Magistrate, and not to the Police officer. But in some cases, when the Magistrate is absent or otherwise unavailable, it may be to the interests of justice that Police officers, qualified as Magistrates, should exercise this function for the apprehension of offenders who might otherwise escape. Accordingly, in urgent cases of such or a similar kind, and in such only, (as it appears to me,) warrants may be issued by Police officers vested with powers under section 6 of the Police Act.

II. "As regards Colonel Bruce's reference, I agree in the view of the Committee, in paragraph 52 of their report, that the words in Section 6, "so far as may be necessary for the performance of the duties assigned to them by this Act," do not authorize the conferring on Police officers of any powers of trial of offenders in the Police Force; and I think that so much of the notification ought to be rescinded. Whether or not it may be convenient, for the ends of discipline, that such authority over their men should be conferred on officers of the Police, may be a question. I am of opinion, however, that the law clearly intended that offenders under section 29 of the Police Act, should be dealt with by a Magistrate other than a Police officer; in other words, by the ordinary tribunals."

In accordance with the foregoing opinion, the Lieutenant Governor is pleased to direct that the Magisterial powers vested in all Deputy Inspectors General and District Superintendents of Police, by the notification of this Government dated 19th March 1863, shall be exercised only in accordance with the provisions of Act XXV of 1861, subject to the restrictions and limitations contained in section 6 of Act V of 1861; and the following words of the aforesaid notification, viz. "*for the purposes set forth in section XXIX of Act V of* 1861," are hereby cancelled.

JUDICIAL.
(*Civil and Criminal.*)

It having been brought to my notice, that in several instances the English Proceedings and Judgments, on which the principal dependence must now be placed in the appeal of important cases, have either been lost or fraudulently abstracted, it has become necessary to lay down some rules for the greater security of such papers.

2. I therefore request that in future the following rules be attended to, and that you remark in the quarterly returns furnished to this office whether the rules are strictly complied with by all your subordinates.

I. The Abstract of the Case, Depositions of Witnesses, and Judgment, must in every instance be written on English paper of uniform foolscap size. On no account should Judgments ever be written on scraps of paper, or on the back of the Vernacular Petition or Order, as is now not unfrequently the case.

II. On every page or sheet the number of the sheet and the names of parties to the case, should be written in the Vernacular as well as English.

III. All English papers should be placed, in full size, between a cover of strong country paper, and should form a separate file of themselves.

IV. An additional fly leaf must be added to every misl, containing an Index in Vernacular of the English papers belonging to the misl, on which every native official through whose hands the files may pass is to certify to the correctness of the Index. The Reader of the Court will not let the misl pass out of his hands till the Record keeper or other moonshee taking it, has certified the correctness of the Index, which course will be followed by every succeeding Moonshee who requires the misl for any purpose.

V. In every office, if not already existing, an official must be appointed as a responsible Despatcher and Receiver of files, who before despatch to, or receipt from another Court, District or Division, will certify to the correctness of the Indices of Vernacular and English papers, immediately bringing to the notice of the head of the office if any papers are missing. The last certifying official will thus be made to feel his reponsibility, and I believe the loss or fraudulent abstraction of papers will soon cease.

Judicial Commissioner, Punjab.

BOOK CIRCULAR No. $\left\{\frac{\text{IV}}{45\text{—}1368}\right\}$ of 1864.

FROM

JUDICIAL COMMISSIONER PUNJAB,

To

ALL COMMISSIONERS IN THE PUNJAB.

Dated Lahore, 5th September 1864.

SIR,

JUDICIAL. (*Civil.*)

In all Civil cases, in which it is necessary to serve Processes out of the District, in which the suit is instituted, in future, an uniform postage rate of twelve annas in cash will be levied on institution of the suit in addition to Tulubana.

2. The sums thus collected will form a District Fund from which postage of all Processes, Reminders, &c., will be disbursed; the surplus being credited to the Talabana Fund, at the end of every half year.

3. It is believed that this amount will ordinarily cover all expenses incurred in postage; if after six months it should prove excessive or insufficient the rate can be altered.

4. The Sheriff will open a book showing Receipts and Disbursements, which should be signed by the District officer at least every month.

5. In future no Stamps will be sent with the Processes for return postage (unless the Process is to be served in Districts beyond the Punjab) but each District after serving the Process will return it with the postage paid out of the District Fund.

6. All Processes and the Envelopes containing them should be on light paper, but when a commission is sent to take evidence it must be on good and durable paper, for it will form part of the record of the case; it should always be accompanied by an English covering docket to ensure immediate attention. In ordinary Processes no covering Robikari will be necessary: an endorsement to the District in which it is to be served with any explanation as to residence of parties, &c., can be recorded on the back of the document.

7. In all Appeal cases where Processes have to be served by post, a charge of four annas will be levied and treated in like manner.

8. In every District an Assistant Commissioner or Extra Assistant Commissioner should be charged with the duty of seeing that no unnecessary delay occurs in serving Processes received by post.

I have, &c.,

A. A. ROBERTS,

Judicial Commissioner, Punjab.

CIRCULAR No. 12.

TO ALL DEPUTY COMMISSIONERS IN CHARGE OF JAILS.

Dated 6th September 1864.

SIR,

I have the honor, under authority of the Judicial Commissioner, to request your attention

to the following points in connection with the transference of prisoners from one jail to another:—

Whenever it is necessary to transfer prisoners from one jail to another, you should, *before making the transfer*, ascertain from the officer in charge of the jail to which you propose making the transfer whether he can receive any, and how many, prisoners, and you should be careful in no case to send him more than he has stated he is prepared to receive into his jail.

If there has been any unusual sickness or any case of infectious disease in your jail within 21 days preceding the date on which you propose to make the transfer, such transfer is on no account to be made.

If prisoners are sent to your jail from another, in which there has been any unusual sickness, or case of infectious disease during the 21 days preceding their departure; or if any unusual sickness or infectious disease has appeared among them on their march, you are not to allow them to enter your jail until examined by the medical officer, who shall state in writing whether he considers it advisable to allow them to enter the jail or not; and, if he considers it advisable they should not be admitted among the prisoners already in the jail, you are authorized to make special provision for their accommodation outside of the jail, reporting the circumstance forthwith to me for the orders of Government.

You will furnish every gang of prisoners leaving your jail, either to be transferred to another jail, or to be transported to the Andamans, with the following certificate signed by the medical officer in charge of your jail:—

I hereby certify that I have this day of examined a gang of prisoners, numbering about to be transferred from the jail to the jail (to be transported to the Andamans, as the case may be); that the individuals of the gang are in good health and fit to travel; that their clothing, bedding, fetters, &c., are in good order and according to rule, and that during the 21 days last past there has been no unusual sickness or case of infectious disease in the jail.

(Signed) A. B., *Medical Officer in charge of the Jail.*

The examination is to be made and the certificate signed within 24 hours of the time the gang leaves the jail.

Whenever prisoners are sent to Mooltan for transportation, they should for at least 14 days be kept separate from the other prisoners in that jail, and the above noted rules are to be observed with reference to their reception and transference to Kurrachee.

I have &c.,

A. M. Dallas,
Inspector General of Prisons.

No. 1802.—The following instructions issued by the Royal National Life Boat Institution for the restoration of the apparently drowned, are published for general information :—

No. 24.

India Office.
London, 16*th June* 1864.

TO HIS EXCELLENCY THE RIGHT HONOURABLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

SIR,—I FORWARD herewith a Packet containing copies of the new Instructions issued by the Royal National Life Boat Institution for the restoration of the apparently drowned, which the Committee of the Institution are desirous should be made known throughout India.

I have &c.
(Signed) C. WOOD.

DIRECTIONS FOR RESTORING THE APPARENTLY DROWNED.

The leading principles of the following directions for the restoration of the apparently dead from drowning are founded on those of the late DR. MARSHALL HALL, combined with those of DR. H. R. SILVESTER, and are the result of extensive inquiries which were made by the Institution in 1863-64 amongst Medical Men, Medical Bodies, and Coroners throughout the United Kingdom. These directions have been extensively circulated by the INSTITUTION throughout the United Kingdom and in the Colonies. They are also in use in Her Majesty's Fleet, and in the Coast-guard Service.

I.

SEND immediately for medical assistance, blankets, and dry clothing, but proceed to treat the patient *instantly* on the spot, in the open air, with the face downward, whether on shore or afloat; exposing the face, neck, and chest to the wind, except in severe weather, and removing all tight clothing from the neck and chest, especially the braces.

The points to be aimed at are—first and *immediately*, the RESTORATION OF BREATHING; and secondly, after breathing is restored, the PROMOTION OF WARMTH AND CIRCULATION.

The efforts to *restore Breathing* must be commenced immediately and energetically, and persevered in for one or two hours, or until a medical man has pronounced that life is extinct. Efforts to promote *Warmth* and *Circulation*, beyond removing the wet clothes and drying the skin, must not be made until the first appearance of natural breathing. For if circulation of the blood be induced before breathing has recommenced, the restoration to life will be endangered.

II.

TO RESTORE BREATHING.

To Clear the Throat—

Place the patient on the floor or ground with the face downwards, and one of the arms under the forehead, in which position all fluids will more readily escape by the mouth, and the tongue itself will fall forward, leaving the entrance into the windpipe free. Assist this operation by wiping and cleansing the mouth.

If satisfactory breathing commences, use the treatment described below to promote Warmth. If there be only slight breathing—or no breathing—or if the breathing fail, then—

To Excite Breathing—

Turn the patient well and instantly on the side, supporting the head, and—

Excite the nostrils with snuff, hartshorn, and smelling salts, or tickle the throat with a feather, &c., if they are at hand. Rub the chest and face warm, and dash cold water, or cold and hot water alternately, on them.

If there be no success, lose not a moment but instantly,

To Imitate Breathing—

Replace the patient on the face, raising and supporting the chest well on a folded coat or other article of dress.

Turn the body very gently on the side and a little beyond, and then briskly on the face, back again; repeating these measures cautiously, efficiently, and perseveringly about fifteen times in the minute, or once every four or five seconds, occasionally varying the side.

[By placing the patient on the chest the weight of the body forces the air out ; when turned on the side, this pressure is removed, and air enters the chest.]

On each occasion that the body is replaced on the face, make uniform but efficient pressure with brisk movement, on the back between and below the shoulder-blades or bones on each side, removing the pressure immediately before turning the body on the side.

During the whole of the operations let one person attend solely to the movements of the head, and of the arms placed under it.

[*The first measure increases the expiration—the second commences inspiration.*

*** The result is *Respiration* or *Natural Breathing*;—and if not too late, *Life*.

Whilst the above operations are being proceeded with, dry the hands and feet; and as soon as dry clothing or blankets can be procured, strip the body and cover, or gradually reclothe it, but taking care not to interfere with the efforts to restore breathing.

III.

Should these efforts not prove successful in the course of from two to five minutes, proceed to imitate breathing by DR. SILVESTER's method, as follows:—

Place the patient on the back on a flat surface, inclined a little upwards from the feet; raise and support the head and shoulders on a small firm cushion or folded article of dress placed under the shoulder blades.

Draw forward the patient's tongue, and keep it projecting beyond the lips: an elastic band over the tongue and under the chin will answer this purpose, or a piece of string or tape may be tied round them, or by raising the lower jaw, the teeth may be made to retain the tongue in that position. Remove all tight clothing from about the neck and chest, especially the braces.

To Imitate the Movements of Breathing—

Standing at the patient's head, grasp the arms just above the elbows, and draw the arms gently and steadily upwards above the head, and *keep them stretched* upwards for two seconds. *(By this means air is drawn into the lungs.)* Then turn down the patient's arms, and press them gently and firmly for two seconds against the side of the chest. *(By this means air is pressed out of the lungs.)*

Repeat these measures alternately, deliberately, and perseveringly, about fifteen times in a minute, until a spontaneous effort to respire is perceived, immediately upon which cease to imitate the movements of breathing, and proceed to INDUCE CIRCULATION AND WARMTH.

IV.

TREATMENT AFTER NATURAL BREATHING HAS BEEN RESTORED.

To promote Warmth and Circulation.

Commence rubbing the limbs upwards, with firm grasping pressure and energy, using handkerchiefs, flannels, &c.: [*By this measure the blood is propelled along the veins towards the heart.*]

The friction must be continued under the blanket or over the dry clothing.

Promote the warmth of the body by the application of hot flannels, bottles, or bladders of hot water, heated bricks, &c., to the pit of the stomach, the arm-pits, between the thighs, and to the soles of the feet.

If the patient has been carried to a house after respiration has been restored, be careful to let the air play freely about the room.

On the restoration of life, a teaspoonful of warm water should be given; and then, if the power of swallowing have returned, small quantities of wine, warm brandy and water, or coffee should be administered. The patient should be kept in bed, and a disposition to sleep encouraged.

GENERAL OBSERVATIONS.

The above treatment should be persevered in for some hours, as it is an erroneous opinion that persons are irrecoverable because life does not soon make its appearance, persons having been restored after persevering for many hours.

Appearances which generally accompany death.

Breathing and the heart's action cease entirely; the eyelids are generally half-closed; the pupils dilated; the jaws clenched; the fingers semi-contracted; the tongue approaches to the under edges of the lips, and these, as well as the nostrils, are covered with a frothy mucus. Coldness and pallor of surface increase.

CAUTIONS.

Prevent unnecessary crowding of persons round the body, especially if in an apartment.

Avoid rough usage, and do not allow the body to remain on the back unless the tongue is secured.

Under no circumstances hold the body up by the feet.

On no account place the body in a warm bath' unless under medical direction, and even then it should only be employed as a momentary excitant.

By order of the Committee,

RICHARD LEWIS.
Secretary.

No. 723 *of* 1864.—The following rules are to be observed from the 1st September 1864, in the admission of allowances to officers attached to Native Regiments when performing the duties of other officers temporarily absent :—

1. The allowance for charge, repair of arms, and payment of wings and squadrons, the office allowance of Adjutants, and of Doing-duty Officers in the Cavalry, and the allowance for repairs of tents of Quarter-Masters, are to be paid to the officers present and actually performing the duties of the appointments and not to absentees, unless the absentee be on privilege leave, when, to retain his right to the wing, squadron, contract, or office allowance, he must provide for the performance of his duties to the satisfication of his Commanding Officer.

2. An officer, directed to officiate in an inferior appointment in his regiment, is not entitled to any portion of the staff salary of such lower situation, but he will draw the charge, contract, or office allowance of the appointment. In such cases, the arrangement for carrying on the duties of the appointment is a matter of regimental detail, which should be directed in regimental orders, and does not require the confirmation of Government or of the Commander-in-Chief. Thus, a Second in Command and Squadron Officer being directed to take charge of another squadron in addition to his own, or an Adjutant being ordered to assume charge of a squadron, or a Squadron Officer or Adjutant acting for a Doing-duty Officer, would only be entitled to the allowance for the payment of the squadron, or to the office allowance of the Doing-duty Officer, in addition to his own staff salary and office or other allowance. In like manner, in the Infantry, a Wing Officer, being ordered to assume charge of the other wing, in addition to his own, or of the Adjutant's or Quarter-Master's office, or an Adjutant being directed to assume charge of the Quarter-Master's office, would simply draw the office, contract, or charge allowance of the appointment.

3. When an officer is directed to officiate in a higher appointment, as in the case of a Doing-duty Officer directed to officiate as Quarter-Master or Adjutant, an Adjutant or Quarter-Master as Wing Officer, a Wing or Squadron Officer as Second in Command, or a Second in Command as Commandant, the regimental order nominating him must be submitted for confirmation to His Excellency the Commander-in-Chief, or (in the case of corps under Government) for confirmation by the Government of India. In such cases, the officiating officer is entitled to half the staff salary of his substantive appointment, together with half the staff salary of the officiating appointment, and the charge, contract, or office allowance of the officiating appointment for a period of six months, and after that period, in the event of the continued absence of the permanent incumbent to the *full* staff pay and charge, contract, or office allowance of the officiating appointment, and to no portion of the salary of his substantive appointment, except that allowed under clause 2 of this order.

Staff, Adjutants', Interpreters', and all similar examinations in the three presidencies; but all officers who have passed these latter examinations, or who may pass them before the 1st February next, will be eligible for the Staff Corps or for ordinary staff employment without further examination.

FIRST STANDARD.

II. The OBJECT of the *First* Standard is to ensure that officers passing it shall have acquired such a knowledge of the Hindustani language as shall enable them efficiently to discharge their military or professional duties when serving with native troops.

III. To this end candidates will be tested as to their ability to read and translate passages from easy Hindustani books, written in the Persian and *Deva Nágari* characters; and to speak on and interpret common or professional subjects, so as to understand, and to be understood by, any ordinary uneducated native of India.

TESTS.

IV. *First.*—Reading fairly, and construing with accuracy, not less than half of an octavo page of the undermentioned works :—

1. " Hindustani Selections " in the Persian character.
2. " Hindustani Selections " in the *Deva Nágari* character.

Second.—Conversing with the examiners, or with natives of India, on subjects likely to occur in the performance of regimental or professional duty, in the transaction of ordinary business, or in the course of every-day life.

If this test be applied through the medium of a native of India, he should speak the plain Hindustani of the presidency or province in which the examination is held, free from peculiarities of idiom and dialect, and not a *patois*,—and though, as regards the performance of professional duties, it must, to a certain extent, be technical in its nature; if, in other respects, the candidate prove his ability to comprehend readily all that is said to him, and to make himself fairly intelligible, more should not be required.

SECOND STANDARD.

V. The OBJECT of the *Second* Standard is to insure that officers passing it shall have acquired such a knowledge of the Hindustani language as shall qualify them, so far as that language is concerned, for general employment on the staff, and for admission to the Staff Corps.

VI. To this end candidates will be tested as to their ability,—1st, to read and construe passages in books of ordinary difficulty in *Urdu* and *Hindi*; 2nd, to make accurate and idiomatic written translations from English into Hindustani in both the Persian and *Deva Nágari* characters; 3rd, to read and translate petitions, native letters, &c., in *Urdu* and *Hindi*; 4th, to converse with educated or uneducated natives of India.

TESTS.

First.—Reading fluently, and construing with readiness and accuracy, not less than an ordinary octavo page of the undermentioned works :—

1. The *Bágh-o-Bahár*.
2. Selections from the prose of the *Prém Ságar*.

Second.—Translating accurately, and with correctness of idiom and grammar, not less than half an ordinary octavo page of plain English into language similar to that of the Bágh-o-Bahár, in the Persian character, and an equal amount, in the *Deva Nágari* character, into language similar to that of the Prém Ságar.

Third.—Reading fairly, and translating readily and correctly, Hindustani manuscripts, written in both the Persian and *Deva Nágari* characters.

These MSS. may be selected from the proceedings of a case in court, from reports or petitions addressed to civil or military authorities, from letters passing between natives of India in the ordinary course of business, or from private correspondence. They should not be written with the clearness of a printed book, nor yet in a very cramped or crabbed hand: but in such a manner as fairly and honestly to represent the written characters as practically employed in the presidency or province in which the examination is held.

Fourth.—Conversing with the examiners or with natives of India with fluency, and with such correctness of pronunciation, grammar, and idiom, as to be at once intelligible.

VII. Every candidate passing an examination by the *First* Standard in Hindustani, will be entitled to receive an allowance of Rs. 180; and on passing by the *Second* Standard, an allowance of Rs. 180 additional; or, in the case of an officer passing at once, by the *Second* Standard, Rs. 360.

Examination in languages, other than Hindustani.

VIII. In addition to the foregoing examinations, there will be examinations for military officers in the languages of India, other than Hindustani, hereinafter mentioned :—

1. Arabic.	9. Ooriya.

3. Sanskrit.	11. Mahrathi.

5. Burmese.	13. Tamil.
6. Assamese.	14. Telugu.
7. Punjabee.	15. Malayalam.
8. Pushtu.	16. Sindhi.

IX. The tests for examinations in any of these languages are to correspond with those laid down for the examination by the *Second* Standard in Hindustani, except that, in examinations in Sanskrit, the colloquial and MSS. portions must be omitted; and that, except in the presidency of Bombay, the colloquial portion of the examination in Arabic may be dispensed with.

X. Every candidate passing an examination under Rule VIII, will be entitled to receive a donation of Rs 800, if the examination be passed in Arabic or Sanskrit; or of Rs. 500 if the examination be passed in any other language.

XI. It will be competent for any local Government, with the sanction of the Governor General in Council, to award a pecuniary donation of Rs. 500 to officers passing an examination of equal difficulty with that appointed for the *Second* Standard, in any Oriental language other than Hindustani, or than the languages mentioned in Rule VIII, the study of which it may be thought desirable for special reasons to encourage.

XII. Every candidate offering himself for examination in any of the undermentioned languages, will, after passing the examination in such language, according to the *Second* Standard as aforesaid, be

permitted to offer himself for further examination in the same language, for the purpose of obtaining a certificate of High Proficiency. A candidate having passed the examination in Hindustani by the *Second* Standard, will be eligible for further examination for a certificate of High Proficiency in Urdu, or Hindi, or both.*

2. Persian.	8. Mahrathi.
3. Sanskrit.	9. Tamil.

XIV. Degrees of Honor may be awarded to military officers in the *Persian, Arabic,* and *Sanskrit* languages, but in no other language. The tests for such degrees are to be in accordance with the tests prescribed by the College of Fort William.

XV. Every candidate obtaining a Degree of Honor in Arabic or Sanskrit, will be entitled to receive a donation of Rs. 5,000, and in Persian of Rs. 4,000.

XVI. In addition to the foregoing donations, the Government of India, and the Governments of Madras and Bombay, respectively, may award a gold medal to any officer employed under any such Governments, who is reported by the Board of Examiners to have passed an examination in any language with extraordinary merit.

XVII. No officer shall receive any pecuniary reward for passing in any language under Rule VIII or Rule XII, whose period of actual residence in India exceeds ten years; nor shall any officer receive any pecuniary reward for passing under Rule XIV, whose period of actual residence in India exceeds fifteen years.

XVIII. The limitations prescribed by the last preceding rule, are not to apply to any officer passing an examination under Rule VIII, in any of the following languages, viz., Burmese, Assamese, Pushtu, Ooriya, and Sindhi, within five years from the date of the promulgation of these Rules.

* The examinations for certificates of High Proficiency in the first six languages here mentioned shall be according to the tests prescribed for similar examinations in the College of Fort William, and the tests for the other five languages shall be laid down by the Local Governments.

HOME DEPARTMENT.

No. 3101.

The 5th October 1864.

The Governor General in Council having had under consideration the rules for the examination of Military Officers seeking admission to the Staff Corps in the Civil and Political Departments, which were published in the Notification of Government, No. 242, dated 25th May last, has determined, subject to the sanction of Her Majesty's Secretary of State, on the substitution of the following rules :—

In continuation of the general Regulations for the admission of Officers to the Staff Corps, notified by the Military Department in G. O. No. 531 of 1864, dated the 27th June, the following rules relating to the future employment of Military Officers in the Civil and Political Departments of the Government, are published for general information :—

I.—A candidate for appointment to the Civil or Political Department, with the view of qualifying for the Staff Corps, must furnish the certificates mentioned in paragraph 5 of G. O. No. 531, of which the forms were given in Appendix A. of the same General Order, and are now re-published at the end of the present Notification

II.—He must have been previously attached, for a period of not less than one year, to a Native Regiment;* but such period may form part of the three years' duty with a regiment required by the general Regulations for admission to the Staff Corps. He will be required to produce a certificate from his superior officer, testifying to his efficiency and good conduct, and especially to his conciliatory demeanour towards the Native soldiery, and other people of the country with whom he has been brought in contact.

III.—The period of one year,—reckoned, as explained in the following rule, from the date of the first half-yearly examination held subsequent to appointment,—is fixed as the limit within which an officer, admitted on probation to employment in the Civil or Political Department, will be required to qualify himself to undergo the examinations hereinafter mentioned, in passing which he will have a claim to have his services retained, and he will then, under the orders of the Military Department, be appointed to the Staff Corps.

IV.—Examinations will be held half-yearly in October and April of each year. A candidate may appear at the first examination held after the expiry of the first six months of his probation, and if he fail to pass must again appear at the next examination, six months later. A candidate failing to pass at the first examination, held after the expiration of his year of probation, will be removed from employment in the Civil or Political Department, and consequently will not be appointed to the Staff Corps.

V.—Subject to such general directions as shall from time to time be given by the Government of India, the examinations will be conducted by a Committee acting under the orders of the Lieutenant Governor, or Chief Commissioner, or Political Agent or Resident, as the case may be.

VI.—The examination will embrace, in the case of officers employed in general civil duties, the subjects of Indian History, Political Economy, and Jurisprudence. The works on the two last-named subjects, in which candidates will be examined, are Mills' Political Economy, Austin's Principles of Jurisprudence, Volume I., and Maine's Ancient Law. Notice of any change in the books for examination will be given at least one year before it takes effect.

VII.—Every officer in civil employment will, in addition to the above examination, and notwithstanding his appointment to the Staff Corps, be required to undergo the local and departmental examinations prescribed for Covenanted Civil Servants in the Province in which he is serving.

VIII.—The examination in the case of officers employed in the Political Department will embrace the subjects above-mentioned, and the candidate will, in addition, be examined in Wheaton's work on the principles of International Law. He will also be examined in the collection of Indian Treaties and Engagements, now being published under the direction of the Foreign Office.

IX.—No Officer will be admitted on probation to Civil or Political employment who has not passed the examination in Hindustani, required by the general Regulations for the admission of officers to the Staff Corps.

X.—Cantonment Magistrates will be classed with officers in civil employment. Separate rules will be promulgated hereafter as regards Police Officers; but Police Officers, if transferred to civil employment, will be required to pass the examination prescribed for officers in civil employment.

---

* Any Officer who has been employed for a year in one of the Departments named on the margin (Survey. Public Works. Commissariat. Stud. Police.), will be exempted from the condition prescribed by Rule II of one year's service with a Native Regiment. Provided, however, that he shall produce, from the officer under whom he may have served in any such Department, a certificate (to be countersigned by the head of the Department) to the same effect as that required from a superior officer in case of service with a Native Regiment.

XI.—As a general rule, Military Officers will be appointed to the Political Department from among those who are already in civil employment, and every officer so transferred will be required to pass, within one year from the date of his transfer, the additional examination in International Law and Indian Treaties prescribed for the Political Department, failing which he will forfeit his appointment.

XII.—These rules are intended to be prospective in their effect. They will not apply to any officers now holding permanent appointments in Civil Political employment. Such officers will be entitled to join the Staff Corps in virtue of their appointments. Officers, however, who do not hold permanent appointments will be subject to these rules. But the case of any officer who has been formerly in Civil or Political employment, and who having quitted such employment may hereafter be re-appointed to it, will be specially dealt with as the circumstances of the case may require.

All in excess of ½ a ton will be charged at full rate.

5th. Quarter deck passengers are allowed baggage to the extent of 20 cubic feet; all in excess of this quantity will be charged at the full rate of freight.

On Monday the 17th October the Viceroy and Governor General, accompanied by the Honorable the Lieutenant Governor of the Punjab, the Secretary to the Government of India, His Excellency's personal staff and the Civil and Military Officers of Lahore, paid a return visit to the Maharajah of Cashmere and Jummoo.

His Excellency was received by the Maharajah and his principal relatives and others, in accordance with established custom, and the usual offerings were presented by the Chief and accepted by His Excellency. A royal salute was fired on the departure of His Excellency from the Lieutenant Governor's house, and on his arrival at and departure from the camp of the Maharajah.

His Excellency, accompanied by the Secretary to the Government of India, and the personal staff, also proceeded to return the visits of the Maharajah of Puttiala and the Rajahs of Jheend and Kuppoorthulla. The ceremonies were similar to those observed at the visit to the Maharajah of Cashmere and Jummoo, and a royal salute was fired as the Governor General reached and again as he left the encampment of each Chief.

On Tuesday the 18th October, the above mentioned Princes and Chiefs, with their relatives and attendants, together with the principal native gentlemen of the Punjab and its dependencies, the leading Chiefs on the Peshawur and Derajat frontier, and others, were received by the Viceroy and Governor General in Public Durbar, at which the Civil and Military officers at Lahore were invited to attend.

The Viceroy and Governor General took his seat in Durbar under a royal salute. When the salute was over, His Excellency addressed the assembled chiefs in Hindostanee, to the following effect :—

" Maharajahs, Rajahs and Chiefs ! Listen to " my words. I have come among you after " an absence of nearly six years, and thank " you for the kindly welcome you have given " me. It is with pleasure that I meet so many " of my old friends, while I mourn the loss of " those who have passed away.

" Princes and Chiefs ! It is with great satis- " faction that I find nearly 600 of you assem- " bled around me in this Durbar. I see before " me the faces of many friends. I recognize " the sons of my old allies, the Maharajahs of " Cashmere and Puttiala, the Sikh Chiefs of " Malwah and the Manjha, the Rajpoot Chiefs " of the hills, the Mahomedan Mullicks of Pesha- " wur and Kohat, the Sirdars of the Derajat, " of Hazara and Delhi. All have gathered " together to do honor to their old Ruler.

" My friends ! Let me tell you of the great in- " terest which the illustrious Queen of England " takes in all matters connected with the wel- " fare, and comfort, and contentment of the " people of India. Let me inform you, when " I returned to my native country, and had the " honor of standing in the presence of Her " Majesty, how kindly she asked after the wel- " fare of her subjects in the East. Let me tell " you when that Great Queen appointed me her " Viceroy of India, how warmly she enjoined " on me the duty of caring for your interests. " Prince Albert, the Consort of Her Majesty, " the fame of whose greatness and goodness " has spread through the whole world, was " well acquainted with all connected with this " country, and always evinced an ardent " desire to see its people happy and flourishing.

" My friends ! It is now more than 18 years " since I first saw Lahore. For thirteen years " I lived in the Punjab. For many years my " brother Sir Henry Lawrence and I governed " this vast country. You all knew him well, " and his memory will ever dwell in your hearts, " as a Ruler who was a real friend of its people.

" I may truly say that from the day we exer- " cised authority in the land, we spared neither " our time, nor our labour, nor our health, " in endeavouring to accomplish the work which " we had undertaken. We studied to make " ourselves acquainted with the usages, the " feelings and the wants of every class and race, " and we endeavoured to improve the condition " of all. There are few parts of the province " which I have not visited, and which I hope " that I did not leave in some degree the better " for my visit. Since British rule was intro- " duced, taxation of all kinds has been lightened, " canals and roads have been constructed, and " schools of learning have been established. " From the highest to the lowest, the people " have become contented, and have proved " loyal. When the great military revolt of " 1857 occurred, they aided their Rulers most " effectively in putting it down. The Chiefs " mustered their contingents, which served " faithfully, and thousands of Punjabee soldiers " flocked to our standards, and shared with the " British troops the glories as well as the hard- " ships of that great struggle.

" Princes and Gentlemen ! If it be wise for " the Rulers of a country to understand the " language and appreciate the feelings of its " people, it is as important that they should " have a similar knowledge of their Rulers. It " is only by such means that the two classes " can live happily together. To this end I urge " you to instruct your sons, and even your " daughters.

" Among the solid advantages which you have " gained from English rule, I will now only " advert to one more. It has given the country " many excellent administrators. Some of the " ablest and kindest of my countrymen have " been employed in the Punjab. Every man " from the highest to the lowest can appreciate " a good Ruler. You have such men as Sir " Robert Montgomery, Mr. Donald Macleod, " Mr. Roberts, Sir Herbert Edwardes, Colonel " Lake, and Colonel John Becher, officers who " have devoted themselves to your service.

" I will now only add that I pray the Great " God, who is the God of all races, and all the " people of this world, that He may guard and " protect you, and teach you all to love justice " and hate oppression, and enable you, each in " his several ways, to do all the good in his " power. May He give you all that is for your " real benefit. So long as I live, I shall never " forget the years that I have passed in the " Punjab, and the friends that I have acquired " throughout this province."

Thereafter the Chiefs and Gentlemen were separately introduced to the Viceroy and Governor General, to whom they presented Nuzzers. Khilluts were conferred in Durbar on the following chiefs and their relatives who were present :—

1. Maharajah of Cashmere and Jummoo, and two relatives.
2. Maharajah of Putteeala.
3. Rajah of Jheend, and one relative.
4. Rajah of Kuppoorthulla, and two relatives.
5. Rajah of Mundee, and four relatives.

6. Nawab of Maleir Kotla, and four relatives.
7. Rajah of Furreedkote, and one relative.
8. Rajah of Chumba.
9. Rajah of Sookeit.
10. Sirdar of Kulseea, and two relatives.
11. Nawab of Patoudhie, and two relatives.
12. Nawab of Loharoo, and three relatives.
13. Nawab of Dojana, and four relatives.
14. Rajah of Gooleria.
15. Sirdar Shumshere Sing, Sindhawalia.
16. Rajah Hurbuns Sing.
17. Mirza Ilahee Buksh.
18. Rajah Sahebdial of Kishenkote.
19. Rajah Ram Sing of Seeba.

The Viceroy and Governor General then left the Durbar under a royal salute, and after the Maharajahs of Cashmere and Jummoo and Puttiala, and the Rajahs of Jheend and Kupoorthulla, had been conducted from the tent, the assembly broke up.

By order of His Excellency the Viceroy and Governor General.

H. M. DURAND,

Secretary to the Government of India.

Lahore, 18*th October*, 1864.

On Monday the 17th October, His Excellency the Viceroy and Governor General invested Rajah Rundheer Singh of Kuppoorthulla with the Insignia of the Most Exalted Order of the Star of India.

The Rajah was attended by eight of his principal relatives and Sirdars. The following Chiefs were present at the ceremony :—

1. Maharajah of Cashmere and Jummoo, K. S. I.
2. Maharajah of Puttiala.
3. Rajah of Jheend.
4. Rajah of Mundee.
5. Nawab of Maleir Kotla.
6. Rajah of Furreedkote.
7. Rajah of Chumba.
8. Rajah of Sookeit.
9. Sirdar of Kulseea.
10. Nawab of Patoudhee.
11. Nawab of Loharoo.
12. Nawab of Dojana.
13. Rajah of Gooleria.

The principal Civil and Military officers present at Lahore were also invited to attend.

The Rajah of Kuppoorthulla received a salute of 11 guns on his arrival and also on his departure, and a guard of honor presented arms to him.

The Governor General took his seat on the Viceregal throne under a royal salute. The Rajah of Kuppoorthulla was conducted to the Viceroy by the Maharajah of Cashmere and Jummoo, who was the only Knight of the Order present, and by the Secretary of the Order.

His Excellency addressed the Rajah in Hindoostanee to the following effect :—

"Rajah Rundheer Singh, Rajah of Kuppoorthulla.

"It is with much satisfaction that I find "myself empowered by Her Most Gracious "Majesty the Queen of England to confer on "you so great a mark of Her Royal favor as "that of the Star of British India. This honor "has only been granted to those Princes and "Chiefs who unite high rank with great personal "merit. It rejoices me to instal you among "the chosen number.

"Your grandfather, Sirdar Futteh Singh, "was a Chief of considerable renown. He "was the well known leader of the Aloowalia "confederacy, and the companion in arms of "the great Maharajah Runjeet Singh. Your "father, Rajah Nihal Singh, was an old friend of "mine, when you were yet a youth. When he "passed away, your Highness succeeded to his "duties and his responsibilities, and have "worthily discharged them. When the mutiny "of 1857 broke out, you were one of the "foremost Chiefs of this country to do your "duty, and range yourself on the side of the "British Government. After the fall of Delhi, "your Highness headed your troops, conducted "them to Oudh, and there assisted in recovering "that province. For these services you received "at the time much praise and liberal rewards; "and now, to crown all, you are about to obtain "a most signal mark of honor from Her Majesty "the Queen of England and India. In the "name then of the Queen, and by Her Majesty's "commands, I now invest you with the Hon'ble "Insignia of the Star of India, of which Most "Exalted Order Her Majesty has been graciously "pleased to appoint you to be a Knight.

"I have addressed you in Hindostanee, in "order that the Princes and Chiefs now present "may the more readily participate in this "ceremony, and that your relatives and friends "may be more highly gratified; otherwise, I "should have spoken in English, for I know "that you thoroughly understand my language. "This circumstance, no doubt, has operated as a "bond of union between your Highness and my "countrymen."

At the conclusion of the address, His Excellency placed the ribbon and the collar of the Order round the Rajah's neck, and delivered to him the Star. The Viceroy, the Maharajah of Cashmere and Jummoo, and the principal Government officials present at the ceremony, then shook hands with the Rajah and congratulated him.

A royal salute was fired when the Viceroy left the Hall in which the ceremonies were performed. The Rajah of Kupoorthullah on his departure received a salute of eleven guns.

BOOK CIRCULAR No. { XVIII / 57-1620. } of 1864.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

Dated Lahore, 26th October 1864.

SIR,

JUDICIAL. (*Criminal.*)

I have the honor to republish for your information and guidance, the following rules regarding burial grounds in the diocese of Calcutta, as amended and approved by the Government of India, in July 1864.

These rules supersede Book Circular 18 of 1862.

I have, &c.,

A. A. ROBERTS,

Judicial Commissioner for the Punjab.

RULES FOR BURIAL GROUNDS

IN THE DIOCESE OF CALCUTTA.

June 1864.

I. The Chaplain of the station has the care of the general Cemetery, points out to the proper officer when the walls need repairing; weeds, grass or jungle clearing away; and the remains of decayed tombs removing. It is his duty to see that the Cemetery is kept in proper order. In the absence of the Chaplain the officer who repairs the walls has the care of the Cemetery.

N. B.—These Rules apply in places where there is no Chaplain, to ministers of the Additional Clergy Society, and to any other clergymen who are appointed to the charge of English congregations, and also receive part of their salary from Government.

II. The Chowkeedar in charge is on the church establishment, and is paid by Government through the Chaplain, by whom he is appointed or dismissed.

III. The Chaplain buries Christians of all denominations whose friends desire his services, using always the service of the Church of England. In all military stations a portion of the Cemetery is set apart by the orders of Government for the use of Roman Catholic congregations. Also, if there are one or more bodies of Christians at a station, not of the Church of England, nor of the Church of Rome, a portion of the Cemetery is to be appropriated for their joint use, should they desire it. These portions thus set apart are not to be fenced or walled off from the rest of the Cemetery, but simply divided off by a pathway; and are to be added to the existing Cemetery, or reserved from it, according as the Cemetery has or has not been consecrated according to the rites of the Church of England. The whole Cemetery thus divided is to be surrounded by a wall (see Government order Public Works Department, 12th April 1861), to have but one gate of entrance, and to be under the care of the Chaplain for the purposes already specified in Rule I (see letter from Government of India to Archdeacon, No. 648, dated 4th April 1861). The key should be kept by the Chowkeedar under the Chaplain's direction, that access to the ground may be readily obtained by the several parties concerned.

IV. The Chaplain has the power, with the advice of the Executive Engineer or officer who repairs the walls, to appoint, and remove if necessary, a person as undertaker, who will

contract for the digging and filling in of all graves, and building pukka graves up to the level of the ground, at rates to be decided upon by the Chaplain and Executive officer, in conformity with any scale which may already be in use in the Regiment at the station.

V. Till a suitable person can be found to take this office, or during a vacancy in the office, the Executive Engineer or the Magistrate or other civil officer of the district, is to be asked to appoint some man of his own establishment to take the duty temporarily.

VI. The undertaker shall engage, if the Chaplain think it necessary, to have one or more graves and coffins always ready in case of sudden emergencies, and the graves kept covered by a framework of boards provided from the Executive Engineer's Department; and to have the graves dug at least six feet deep, where it is practicable. The name and residence of the undertaker and his scale of charges are to be posted up at the entrance of the Cemetery for the information of the public. He is to keep a plan of the Church of England portion of the Cemetery, with references written upon it, in a book in which the names of parties interred are recorded; this plan and book being kept with the Church Registers.

VII. Monuments may be erected by any party with or without the services of the appointed undertaker. The Chaplain must approve of the inscription, and also of the dimensions of any monument to be erected in the Church of England portion of the Cemetery. The dimensions must not be so large as to occupy much space. Brick monuments are to be discouraged; as soon coming to decay in this country; stone or even wooden ones are much to be preferred; also pukka monuments over kuccha graves are prohibited, as they almost invariably fall in during some following rainy season. The inscription should be submitted for approval before it is cut, as parties have been known to become liable to great expense by neglecting this precaution.

VIII. The Chaplain should communicate with the friends of the deceased when a monument needs repairing, and if it falls into a ruinous condition, and no party will undertake to restore it, the ruined monument must be made level with the ground during the next repairs, and any slab it contained must be placed over the grave in simple masonry, or be inserted in the wall by the Government officer.

IX. Every reasonable effort should be made by the Chaplain not only to keep the Cemetery in decent order, but to preserve its character as the resting-place of the remains of departed friends, by suggesting appropriate designs for monuments, and by planting the ground with suitable trees. The money procured by the sale of the grass may be laid out in such improvements.

X. The Cemetery should be inspected once in a half year by the Chaplain, in company with the Executive Engineer, the plan and book kept by the undertaker being also examined, and a report made to the Archdeacon and recorded in the Ecclesiastical Record Book of the station, and also in the Engineer's office.

XI. It is desirable that Officers Commanding Regiments or detachments should be instructed to cause a report to be made to the nearest civil officer of graves dug for soldiers on march, that measures may be taken for their effectual protection and preservation.

XII. At stations where there is no Chaplain or other clergyman in the pay of Government, the Magistrate or Deputy Commissioner, and at out-stations any subordinate officer to be nominated by him, will have charge of the Cemetery, and see that it is kept in proper order and repair.

XIII. The Chowkeedar of the Cemetery in such stations will be appointed or dismissed by the officer in charge, and will be paid by the Government through him.

XIV. The Chowkeedar will keep the key of the Cemetery under the direction of the officer in charge.

XV. The officer in charge of the Cemetery will perform all the duties assigned to the Chaplain by Rules IV, V, VI, VII, VIII, and IX, with the exception of the approval of the

inscriptions, which are to be forwarded to the Archdeacon, and not cut till his sanction is obtained.

XVI. Commissioners of Division should inspect Cemeteries thus placed under the care of Magistrates or Deputy Commissioners in the course of their annual tours, and should bring to the notice of Government any instances of Cemeteries which are negligently kept, or which the officer in charge may have allowed to fall into a state of bad repair or disorder. These Cemeteries are, however, as much subject to the visitations and supervision of the Bishop and Archdeacon, as those at Military and other stations to which Chaplains and ministers in the pay of Government are appointed.

XVII.—Commissioners are also authorized to visit Cemeteries under the care of Chaplains and other ministers, to make suggestions to the clergymen in charge, and if deemed necessary to report to the Archdeacon regarding their condition.

XVIII. The above Rules do not apply to the Presidency Cemeteries, which have Rules of their own.

By order of the Government of India,

(Sd.) E. C. BAYLEY,

Secy. to the Govt. of India, Home Department.

No. 845 *of* 1864.—The following Notification issued in the Home Department is re-published in General Orders :—

No. 3101.

The 5th October 1864.

Notification.—The Governor General in Council having had under consideration the rule for the examination of Military officers seeking admission to the Staff Corps in the Civil and Political Departments, which were published in the Notification of Government, No. 242, dated 25th May last, has determined, subject to the sanction of Her Majesty's Secretary of State, on the substitution of the following rules :—

In continuation of the general regulations for the admission of officers to the Staff Corps, notified by the Military Department in G. O. No. 531 of 1864, dated the 27th June, the following rules, relating to the future employment of Military officers in the Civil and Political Departments of the Government, are published for general information :—

I.—A candidate for appointment to the Civil or Political Department, with the view of qualifying for the Staff Corps, must furnish the certificates mentioned in paragraph 5 of G. O. No. 531, of which the forms were given in Appendix A. of the same General Order, and are now republished at the end of the present Notfication.

II.—He must have been previously attached, for a period of not less than one year, to a Native Regiment ;* but such period may form part of the three years' duty with a Regiment required by the general regulations for admission to the Staff Corps. He will be required to produce a certificate from his superior officer, testifying to his efficiency and good conduct, and especially to his conciliatory demeanour towards the native soldiery, and other people of the country with whom he has been brought in contract.

III.—The period of one year,—reckoned, as explained in the following rule, from the date of the first half-yearly examination held subsequent *to appointment,—is fixed as the limit* within which an officer, admitted on probation to employment in the Civil or Political Department, will be required to qualify himself to undergo the examinations hereinafter mentioned, in passing which he will have a claim to have his services retained, and he will then, under the orders of the Military Department, be appointed to the Staff Corps.

IV.—Examinations will be held half-yearly in October and April of each year. A candidate may appear at the first examination held after the expiry of the first six months of his probation, and if he fail to pass, must again appear at the next examination, six months later. A candidate failing to pass at the first examination held after the expiration of his year of probation, will be removed from employment in the Civil or Political Department, and consequently will not be appointed to the Staff Corps.

V.—Subject to such general directions as shall from time to time be given by the Government of India, the examinations will be conducted by a Committee acting under the orders of the Lieutenant Governor, or Chief Commissioner, or Political Agent, or Resident, as the case may be.

VI.—The examination will embrace, in the case of officers employed in general civil duties, the subjects of Indian History, Political Economy,

* Any officer who has been employed for a year in one of the Departments named on the margin (Survey. Public Works. Commissariat. Stud. Police.), will be exempted from the condition prescribed by Rule II of one year's service with a Native Regiment. Provided, however, that he shall produce, from the officer under whom he may have served in any such Department, a certificate (to be countersigned by the head of the Department) to the same effect as that required from a superior officer in case of service with a Native Regiment.

and Jurisprudence. The works on the two last-named subjects, in which candidates will be examined, are Mill's Political Economy, Austin's Principles of Jurisprudence, Volume I., and Maine's Ancient Law. Notice of any change in the books for examination will be given at least one year before it takes effect.

VII.—Every officer in civil employment will, in addition to the above examination, and notwithstanding his appointment to the Staff Corps, be required to undergo the local and departmental examinations prescribed for Covenanted Civil Servants in the province in which he is serving.

VIII.—The examination in the case of officers employed in the Political Department will embrace the subjects above-mentioned, and the candidate will, in addition, be examined in Wheaton's work on the principles of International Law. He will also be examined in the collection of Indian Treaties and Engagements now being published under the direction of the Foreign Office.

IX.—No officer will be admitted on probation to Civil or Political employment who has not passed the examination in Hindustani required by the General Regulations for the admission of officers to the Staff Corps.

X.—Cantonment Magistrates will be classed with officers in civil employment. Separate rules will be promulgated hereafter as regards Police Officers; but Police Officers, if transferred to civil employment, will be required to pass the examination prescribed for officers in civil employment.

XI.—As a general rule, Military Officers will be appointed to the *Political Department* from among those who are already in civil employment, and every officer so transferred will be required to pass, within one year from the date of his transfer, the additional examination in International Law and Indian Treaties prescribed for the Political Department, failing which he will forfeit his appointment.

XII.—These rules are intended to be prospective in their effect. They will not apply to any officers now holding permanent appointments in Civil Political employment. Such officers will be entitled to join the Staff Corps in virtue of their appointment. Officers, however, who do not hold permanent appointments will be subject to these rules. But the case of any officer who has been formerly in Civil or Political employment and who having quitted such employment may hereafter be re-appointed to it, will be specially dealt with as the circumstances of the case may require.

JUDICIAL DEPARTMENT.

BOOK CIRCULAR No. { XX / 61-1657. } of 1864.

To

ALL COMMISSIONERS AND SUPERINTENDENTS IN THE PUNJAB.

Dated Lahore, 3rd November 1864.

SIR,

In modification of the circulars noted in the margin, and with the sanction of His Honor the Lieutenant Governor, I have the honor to direct that, from the 1st January 1865, Licenses for carrying arms, under section 28 of Act XXXI of 1860 (Arms Act), be granted for periods of (3) three years, unless in any case there be special reasons for limiting the period of the License.

JUDICIAL. *Criminal.* Judicial Commissioner's Circular No. 9—16 of 1862. Book Circular V—45—2558 of 1863.

2. In future the Returns of Licenses need only be submitted to this office half-yearly.

3. The number of Licenses to carry arms in districts where wild animals abound may now be considerably increased. The revised scale of rewards, which has just been promulgated with the sanction of Government, will not of itself be sufficient to ensure the destruction of animals. It is necessary to supply huntsmen in particular with fire-arms, and I request your attention to this matter.

4. In each district only one License should be granted to manufacture Gunpowder; and it should, as a rule, be given to a resident of the Sudder station. Should it be desired to give more than one License in a district, a special report should be made to this office.

I have, &c.,
A. A. ROBERTS,
Judicial Commissioner, Punjab.

No. 3169.

The 10th November 1864.

Read again the Resolution of the Government of India on the Report of the Commissioners of Inquiry into the Indian Accounts upon the mode of conducting the business of the Financial department, and of the offices of Account and Audit attached to that department, dated October 4th 1864, No. 2805.

Resolution.—As it has been proposed to the Secretary of State to detain Mr. Foster during such time as may be necessary to give effect to the improved system of Account and Audit recommended in his and Mr. Whiffin's report, it becomes necessary to lay down the course to be followed in order to carry out, without delay, and with the utmost efficiency, such changes as may be sanctioned in the system of Account and Audit in the Financial department.

2. Mr. Foster will be charged with the duty of preparing the detailed instructions and forms of account which will be necessary to bring the new arrangements into practical operation.

3. The Accountant General to the Government of India, and the Deputy Auditor and Accountant General for Bengal, will co-operate with Mr. Foster, and give him every assistance they may be able to afford, but it will be desirable to place, specially under Mr. Foster, a staff of officers, whose duty it will be to prepare, under his directions, such rules and regulations and such books of account as may be required under the revised system.

4. The officers who will be employed in this service are—

1. Mr. Sandeman, Civil Pay Master.

2. Mr. Wyatt, First Assistant to the Auditor General.

3. Mr. Turner, Assistant Commissioner.

4. Mr. A. C. Foster, of the Financial department.

5. These, with a limited number of intelligent clerks, to be selected as far as possible, from those now employed in the Financial offices, will be sufficient for the preliminary steps which will have to be taken in anticipation of the complete system being commenced on the 1st of May next.

6. It is not intended to pass any final decision on the recommendations contained in the report until the opinions of the local Governments and Administrations shall have been received; but it is desired to put those recommendations into a practical form, capable of immediate application, and to make such other subsidiary arrangements as can with advantage be adopted. The Governor General in Council also deems it advisable that the revised system should, with the concurrence of the Lieutenant-Governor, be experimentally introduced at Calcutta and throughout the Government of Bengal, in order that a model may be obtained for the rest of India. Every official instruction that may be necessary for giving effect to this resolution will be issued through the Financial Secretary's office.

Ordered, that a copy be transmitted to the Secretary to the Government of Bengal, with an expression of the wish of the Governor General in Council that every necessary assistance may be given to Mr. Foster in the execution of the important duty which has been entrusted to him.

Also, that a copy be sent to the Accountant General, and to the Deputy Auditor and Accountant General of Bengal, and the other officers named, for their information and guidance.

Also, that a copy be sent to the local Governments and Administrations, other than the Government of Bengal, with a request that they will furnish their opinion upon the report called for by the Resolution of October 4th, No. 2805, with the least practicable delay.

Also, that the resolution be published in the *Gazette of India*.

FOREIGN DEPARTMENT.

POLITICAL.

Fort William, the 12th November 1864.

Proclamation.—For many years past outrages have been committed by subjects of the Bootan Government within British territory, and in the territories of the Rajahs of Sikhim and Cooch Behar. In these outrages property has been plundered and destroyed, lives have been taken, and many innocent persons have been carried into and are still held in captivity.

The British Government, ever sincerely desirous of maintaining friendly relations with neighbouring States, and especially mindful of the obligations imposed on it by the treaty of 1774, has endeavoured from time to time by conciliatory remonstrance to induce the Government of Bootan to punish the perpetrators of these crimes, to restore the plundered property, and to liberate the captives. But such remonstrances have never been successful, and, even when followed by serious warning, have failed to produce any satisfactory result. The British Government has been frequently deceived by vague assurances and promises for the future, but no property has ever been restored, no captive liberated, no offender punished, and the outrages have continued.

In 1863, the Government of India, being averse to the adoption of extreme measures for the protection of its subjects and dependent allies, despatched a Special Mission to the Bootan Court, charged with proposals of a conciliatory character, but instructed to demand the surrender of all captives, the restoration of plundered property, and security for the future peace of the frontier.

This pacific overture was insolently rejected by the Government of Bootan. Not only were restitution for the past and security for the future refused, but the British Envoy was insulted in open durbar, and compelled, as the only means of ensuring the safe return of the Mission, to sign a document which the Government of India could only instantly repudiate.

For this insult the Governor General in Council determined to withold for ever the annual payments previously made to the Bootan Government on account of the revenues of the Assam Dooars and Ambaree Falakotta, which had long been in the occupation of the British Government, and annexed those districts permanently to British territory. At the same time, still anxious to avoid an open rupture, the Governor General in Council addressed a letter to the Deb and Dhurma Rajahs, formally demanding that all captives detained in Bootan against their will should be released, and that all property carried off during the last five years should be restored.

To this demand the Government of Bootan has returned an evasive reply, from which can be gathered no hope that the just requisitions of the Government of India will ever be complied with, or that the security of the frontier can be provided for otherwise than by depriving the Government of Bootan and its subjects of the means and opportunity of future aggression.

The Governor General in Council has, therefore, reluctantly resolved to occupy permanently and annex to British territory the Bengal Dooars of Bootan, and so much of the hill territory, including the forts of Dallinkot, Pasakha, and Dewangiri, as may be necessary to command the Passes, and to prevent hostile or predatory incursions of Bootanese into the Darjeeling district or into the plains below. A military force, amply sufficient to occupy this tract and to overcome all resistance, has been assembled on the frontier, and will now proceed to carry out this resolve.

All Chiefs, Zemindars, Munduls, Ryots, and other inhabitants of the tract in question are hereby required to submit to the authority of the British Government, to remain quietly in their homes, and to render assistance to the British troops and to the Commissioner who is charged with the administration of the tract. Protection of life and property and a guarantee of all private rights is offered to those who do not resist, and strict justice will be done to all. The lands will be moderately assessed, and all oppression and extortion will be absolutely prohibited.

The future boundary between the territories of the Queen of England and those of Bootan will be surveyed and marked off; and the authority of the Government of Bootan within this boundary will cease for ever.

No. 497.

The Viceroy and Governor General in Council is pleased to publish the following telegrams, on the subject of rates to be charged for messages between India and England by the Mekran Coast and Sub-Marine Telegraph :—

Telegram,—From COLONEL STEWART, *Constantinople, to* MR. WALTON, *Genl. Supt., Persian Gulf Line, Kurrachee,—dated 17th September* 1864.

The settlement of accounts is now arranged for in the manner originally suggested by me; but in order to allow of all European messages being repeated on the Indian lines, it is proposed to alter the rates east of Kurachee as follows: from Kurrachee to Galle or stations in Ceylon, sixteen shillings and six pence, half of thirty-three shillings; Kurachee to Rangoon, Pegu, or stations east of Calcutta, thirteen shillings and six pence, half of twenty-seven shillings; Kurachee to all other Indian stations, nine and six pence, half of nineteen shillings. This will make the total charge from London to Calcutta, Bombay, or Madras exactly five pounds. Please communicate this to Colonel Douglas by telegraph, and say that our tables of tariff will be prepared on this ratified scale.

Telegram From Mr. Carthew, *Inspr., Turkish Telegraphs, Burreh, to* Mr. Walton, *Genl. Supt., Persian Gulf Line,—dated 8th Sept.* 1864.

Dated Bagdad, 2nd September 1864.

Colonel Stewart has arrived at Constantinople, and requests me to inform you that the tariffs, as now settled, are as follows, viz.:—

		£	s.	d.
Constantinople	to Khanakin ...	0	18	0
Ditto	to Faô	1	2	0
Ditto	to Kurrachee by each line	3	12	0

You are to alter the table of rates accordingly.

Office Memorandum from the Home Department, No. 2818, dated the 19th September 1864, forwarding two public Despatches from the Right Hon'ble the Secretary of State, Nos. 168 and 145, dated respectively the 31st December 1860 and 16th December 1861.

Office Memorandum from the Home Department No. 4724, dated 3rd October 1864, forwarding among other papers, extracts from a public Despatch from the Hon'ble the Court of Directors, No. 83, dated 3rd June 1857, para. 13, and from a public Despatch from the Right Hon'ble the Secretary of State for India, No. 19, dated 13th October 1858, para. 53.

Read again the undermentioned Financial Despatches from the Right Hon'ble the Secretary of State for India, communicating instructions for the guidance of this Government in the selection of Financial documents for publication in the Newspapers and the Official Gazette:—

Financial Despatch from the Right Hon'ble the Secretary of State for India, No. 1, dated 12th January 1860.

Ditto ditto No. 48, dated 26th March 1860.
Ditto ditto " 85, " 26th May 1860.

Resolution.—The Governor General in Council observes, that in 1855 the Government of India being of opinion that a well-regulated system of publication of official documents in the Newspapers was calculated to be of essential service both to the Government and to the public, resolved that official papers on all points which were of general interest, should be made public while the interest was still fresh. With this view an "Editor's table" was established in the office of the Secretary to the Government of India, in the Home Department, where official papers were open to inspection by Editors or representatives of respectable Newspapers.

This arrangement has however, fallen into disuse since the introduction of the plan of occasionally publishing official correspondence in a Supplement to the *Official Gazette*; but as there are many papers which may properly be communicated to the public, though they are not of sufficient general importance to warrant their publication in the Supplement to the *Gazette*, His Excellency in Council resolves to re-establish an Editors' room on the same footing as heretofore, in the Financial Secretary's Office, which has suitable accommodation for the purpose, and in which Department a proportionally larger number of classes of questions of general interest obtain their final disposal.

It is not intended that the publication should be confined to papers connected with the Financial Secretary's Office. All Departments will send to that office papers which can be made public with advantage.

The sanction of Government to publication will be necessary in each case. The publication will also be limited to documents which have been communicated to the Secretary of State, which relate to matters in which the public have a direct concern, and which may be communicated without prejudice to the interests of the State. Exception will be made in regard to all Despatches on subjects which may be still under discussion with any Local Government or Administration, or which may have been referred to the Home Government for orders, and fragments of correspondence.

The official papers placed on the Editors' table will lie there for a week at least; and will be open to inspection by Editors or representatives of respectable Newspapers, who will be at liberty to make copies of, or extracts from, such of the documents as they may select for publication.

Order—Ordered, that a copy of the above Resolution be sent to the Departments noted in the margin, for information and guidance.

Ordered, also, that a copy of the Resolution be published in the *Gazette of India* for general information, and that it be notified that the Editors' room will be open on the 1st December.

NOTIFICATION.

JUDICIAL DEPARTMENT.

BOOK CIRCULAR No. $\left\{\frac{\text{III}}{64\text{-}1799}\right\}$ of 1864.

To

ALL COMMISSIONERS AND SUPERINTENDENTS IN THE PUNJAB.

Dated Lahore, 5th December 1864.

SIR,

JUDICIAL. *Jails.*

By Article 9 of the Punjab Jail Manual, it is required that two Descriptive Rolls, one by the Magistrate and one by the Medical Officer, are to accompany prisoners transferred from one jail to another. In the latter Statement the Medical Officer is required to certify, in column 12, "as to the *prisoner's health and fitness* for removal."

2. Again, in No. 13 of the Rules annexed to Judicial Book Circular 10—21 of 1862, it is laid down that the Medical Officer "shall examine every prisoner (about to be transferred), and report as to his being free from malignant, contagious, infectious, or other disqualifying disease, and in a *fit state to be removed.*"

3. Notwithstanding these standing orders, it would appear that it is a general practice, when an officer gets an order to transfer prisoners, to send away all his old and infirm men. It is asserted that the death rate of certain jails has been materially affected this year by such a course.

4. I, therefore, request particular attention to this point. In future on no account is any old, infirm, or sickly prisoner to be transferred from one jail to another, unless the sanction of this office, or the Inspector General of Prisons, shall have been obtained thereto, on a full report of the peculiar circumstances rendering the transfer necessary. Any transgression of these orders will be severely noticed.

Judicial Commissioner, Punjab.

MILITARY DEPARTMENT.

The 26th November 1864.

No. 953 *of* 1864.—There being considerable misunderstanding with respect to the pay and allowances to be drawn by Medical Officers under the instructions contained in the despatch of the Secretary of State, published in Government General Order No. 507 of the 20th June 1864, the following rules are laid down for observance in the three Presidencies, with effect from the date laid down in Government General Order No. 508 of the same day, and pending further reference to the Secretary of State :—

I. All Medical Officers, whether of British or Indian Forces, who were in receipt of consolidated salaries at the date of publication of the General Order, or who may have subsequently succeeded, or may hereafter succeed, to situations the salaries of which are consolidated, will draw such consolidated salary, and no more.

When so situated as to be entitled to draw only half staff salary, such officers will draw the pay of their rank according to para. 10 of the despatch of the Secretary of State, and half the difference between that sum and the amount of the consolidated salary.

In such case, the officer acting will also draw the new rate of pay for his rank and the half difference remaining undrawn by the permanent incumbent.

II. Surgeon Majors, serving with British Regiments, will draw pay according to length of service, as laid down in para. 10, with the addition of the horse allowance sanctioned in para. 11, if attached to Regiments of Cavalry or to Brigades of Horse Artillery, and of Rs. 30 if attached to Brigades of Field Artillery.

III. Surgeons of British Regiments who were in medical charge of Regiments of British Cavalry and Infantry on the 20th June 1864, will be allowed to continue to receive the pay and allowances then drawn.

Their claim to the old rate will not be invalidated by their proceeding on leave in India, and ceasing for a time to draw staff salary or head money. During such period, they will draw the new rates of pay of their rank, and on return to their corps receive their old emoluments.

When promoted to Surgeon Major, they will draw only the pay of that grade.

IV. Surgeons of British Regiments who were not in charge of corps on the 20th June 1864, are only entitled to the new rates of pay of their grade, whether absent or present, with the prescribed horse allowance, if attached to Cavalry or Horse Artillery, and Rs. 30 horse allowance, if attached to Field Artillery.

V. Assistant Surgeons of the British Service will, in all cases, receive the pay of their standing as laid down in para. 10, with an addition of Rs. 150, if in medical charge of a Regiment of Cavalry or Infantry, or Brigade of Artillery, or a permanent Depôt, besides Rs. 60 per mensem horse allowance, if with Cavalry or Horse Artillery, and Rs. 30 if attached to Field Artillery.

VI. Medical Officers of the Indian Service who do not come under the provisions of Clause I. of this Order, will draw the same pay and allowances as before the issue of the Order, unless it is below the pay assigned to their rank in para. 10, in which case they will be permitted to draw the higher rate of pay. In the latter case, they will draw horse allowance at the prescribed rates, if with Cavalry, Horse Artillery, or Field Artillery.

VII. Medical Officers drawing pay under the old rules will receive any advantages to which they would become entitled by these rules in consequence of promotion or having completed five, six or ten years' service as Assistant Surgeons.

VIII. Medical Officers, whether of the British or Indian Service, holding staff appointments, and in receipt of staff or half staff salaries, will, until further orders, draw the present rates of staff salary in addition to the old scale of pay, receiving any increase in the latter to which they would have become entitled by promotion, unless the aggregate shall be less than the pay of their grade under para. 10 of the Secretary of State's despatch, in which case they will receive the latter only. When on leave they will draw the new rates of pay without staff salary, the acting incumbent drawing the staff salary with the old rate of pay, or the new rates without staff pay, as may be most advantageous.

IX. Conveyance allowance will not be admissible to Assistant Surgeons on the new rates of pay.

X. The authorized allowance for the medical charge of the staff of Divisions or Brigades will be passed in addition to pay and allowances, whether on the old or new scale.

The foregoing is in substitution of any orders or decisions on the subject that may have previously been given.

SIR,

JUDICIAL. (*Criminal.*)

The Nizamut Adawlut North Western Provinces, on the 14th September last, called the attention of Magistrates in those Provinces to the inexpediency of needlessly dragging about persons under trial when the Magistrate or his subordinates are in camp.

2. The Inspector General of Police in the Punjab has brought to my notice that it has happened that a Magistrate on tour has had as many as 30 persons in a police lock-up.

3. As such a practice cannot fail to be prejudicial to the health of persons under trial, who suffer from the marching, for which their diet scale is not calculated, from tne irregularity and indifferent cooking of their meals, and also from exposure, I request your attention and that of your subordinates to the subject, with a view to the adoption of such measures as will lessen the frequency of the practice, and will obviate the evil results pointed out, whenever a Magistrate finds it unavoidable to take persons under trial into camp.

I have, &c.,

FROM

THE JUDICIAL COMMISSIONER PUNJAB,

TO

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

Dated Lahore, 12th December, 1864.

SIR,

JUDICIAL. (*Criminal.*)

By the Annual Articles of War for the British Army, it is incumbent on the Police to arrest, without warrant, European British soldiers who may desert.

I am of opinion that it is also incumbent upon the Police to arrest, without warrant, any regularly enrolled Native soldier who may desert from his regiment; and that it is the duty of Magistrates to support the Police.

The Inspector General of Police has just issued a Circular, No. 39, dated 1st December 1864, and I have to request that the Magistrates, when called upon, will do their part, and forward deserters to the proper military authorities.

2. The arrest, on a charge of desertion, of recruits who have not been enrolled, is not legal.
